Jerusalem Without God - Paola Caridi 2017

Jerusalem without God leads the reader through the streets, malls, suburbs, traffic jams, and squares of Jerusalem's present moment, into the

daily lives of the men and women who inhabit it. Caridi brings contemporary Jerusalem alive by describing it as a place of sights and senses, sounds and smells, but she also shows us a city riven by the harsh asymmetry of power and control embodied in its lines, limits, walls, and borders. She explores a cruel city, where Israeli and Palestinian civilians sometimes spend hours in the same supermarkets, only to return to the confines of their respective districts, invisible to each other.

Contextual Identities - Leo Loveday

2015-06-01

By bringing the concepts of identity, comparativism, and communication together, this volume invites a reinterpretation of these defining concepts of postmodernism. Composed of contributions from Australia, Azerbaijan, Japan, Romania and the Ukraine, this interdisciplinary and intercultural book investigates the multiple identities activated in broader discursive contexts. This collection of nineteen chapters opens with an introductory overview followed by two parts: the first, focusing on Plural identities and comparativism, contains a series of case studies that can be subsumed within imagology and comparativism; the second, Communication and discourse, illustrates two directions of research: literary communication and terminology. In spite of the methodological and thematic polyphony of its contributions, the volume adopts a unified and coherent tone. By integrating the study of contextual and discursive identities, this book will be of interest to all those involved in image and literary studies, in both linguistics and

culture.

Language Education Today - Georgeta Rață
2009-12-14

The Mountain Giants - Luigi Pirandello
1993-07

A long-awaited theatrical and literary event; this posthumously published and unfinished play has been provided with the missing final scene by Charles Wood. The action takes place in the fantastic Villa Scalogna, inhabited by a grotesque group of people led by Cotrone, a wizard and illusionist. Into this scene comes a band of actors, about to perform one of Pirandello's own plays. The Mountain Giants was first produced at the National Theatre in the summer of 1993. Pirandello's prolific writing career was unusual in that he had already earned a considerable reputation as a poet and prose author before turning to the theatre relatively late in life. The premiere of Six Characters in Search of an Author in 1921 established him internationally as Italy's leading playwright.

10th Conference on British and American Studies - Crossing Boundaries - Marinela Burada
2014-06-30

This book consists of a collection of papers on specific issues centred around three broad areas of scholarly interest: native language analysis, foreign language acquisition and training, and cultural and literary studies. It provides a concise snapshot of the multiplicity of vantage points from which language, literature and culture-related phenomena can be studied and accounted for. The unifying principle behind the variety of issues and approaches illustrated here is the overarching notion of Englishness treated as an object of intellectual inquiry (with a focus on the English-speaking communities, their cultures, English-based creole languages) and as a repository of methodological blueprints applicable in explorations of other languages and cultures. The authors of the articles included in this volume are academics and junior researchers who, on the occasion of the 10th Conference on British and American Studies, convened to share their ideas and pave the way for further work in intersecting research areas subsumed under linguistics, sociolinguistics, and cultural studies.

Final Exam - Julio Cortázar 2008-07-17

One of Julio Cortázar's great early novels.
"Anyone who doesn't read Cortázar is
doomed."—Pablo Neruda In its characters,
themes, and preoccupations, Final Exam
prefigures Cortázar's later fictions, including
Blow-Up and his masterpiece, Hopscotch.
Written in 1950 (just before the fall of Perón's
government), it is Cortázar's allegorical, bitter,
and melancholy farewell to an Argentina from
which he was about to be permanently self-

exiled. (Cortázar moved to Paris the following
year.) The setting of Final Exam is a surreal
Buenos Aires, dark and eerie, where a strange
fog has enveloped the city to everyone's
bewilderment. Juan and Clara, two students,
meet up with their friends Andrés and Stella, as
well as a journalist friend they call "the
chronicler." Juan and Clara are getting ready to
take their final exams, but instead of preparing,
they wander the city with their friends,
encounter strange happenings in the squares
and ponder life in cafés. All the while, they are
trailed by the mysterious Abel. With its daring
typography, its shifts in rhythm as well as in the
wildly veering directions of its characters'
thoughts and speech, Final Exam breaks new
ground in the territory of stream-of-
consciousness narrative techniques. It is
considered one of Cortázar's best works.

Language Policy and Linguistic Justice -

Michele Gazzola 2018-09-03

Language policies are increasingly acknowledged as being a necessary component of many decisions taken in the areas of the labor market, education, minority languages, mobility, and social inclusion of migrants. They can affect the democratic control of political organizations, and they can either entrench or reduce inequalities. These are the central topics of this book. Economists, philosophers, political scientists, and sociolinguists discuss - from an interdisciplinary perspective - the distributive socio-economic effects of language policies, their impact on justice and inequality at the national or international level, as well as the connection between language choices and an inclusive access to public services. The range of social and economic issues raised by linguistic diversity in contemporary societies is large, and this requires new approaches to tackle them. This book provides new input to design better, more efficient, and fair language policies in

order to manage linguistic diversity in different areas. Topics covered include: theoretical models of linguistic justice and linguistic disadvantage; the assessment of the socio-economic consequences of language policies; the evaluation of the costs, benefits, and degree of inclusion of language planning measures; the politics of migrants' linguistic integration; as well as multilingualism and economic activities. These topics are discussed in different contexts, including the areas inhabited by linguistic minorities, cities receiving migrants, and supranational organizations.
