The Crossroads of Should and Must - Elle Luna 2015-04-07

Who hasn't asked the question "How can I find and follow my true calling?" Elle Luna frames this moment as "standing at the crossroads of Should and Must." "Should" is what we feel we ought to be doing, or what is expected of us. "Must" is the thing we dream of doing, our heart's desire. And it was her own personal journey that inspired Elle Luna to write a brief online manifesto that, in a few short months, has touched hundreds of thousands of people who've read it or heard Elle speak on the topic. Now Ms. Luna expands her ideas into an inspirational, highly visual gift book for every recent graduate, every artist, every seeker, every career changer. The Crossroads of Should and Must has a universal message—we get to choose the path between Should and Must. And it gives every reader permission to

embrace this message. It's about the difference between jobs, careers, and callings. The difference between going to work and becoming one with your work. Why knowing what you want is often the hardest part. It gives eye-opening techniques for reconnecting with one's inner voice, like writing your own obituary (talk about putting life in perspective). It talks about the most common fears of choosing Must over Should—money, time, space, and the ultimate fear: total vulnerability—and shores up our hesitation with inspiring stories of and quotes from the artists and writers and thinkers who've faced their own crossroads of Should and Must and taken the leap. It explains the importance of mistakes, of "unlearning," of solitude, of keeping moving, of following a soul path. Presented in four chapters—The Crossroads, The Origin of Should, Must, and The Return—inspired by the hero's journey outlined by Joseph Campbell, The Crossroads of Should and Must

guides us from the small moment, discovering our Must, to the big moment—actually doing something about it, and returning to share our new gifts with the world.

ZZDP, architecten-ondernemers - Noor Mens 2004

A thorough overview in words and visual material of the work of one of this country's largest architectural firms. Founded in 1954 by Piet Zanstra, ZZDP grew into one of the Netherlands' largest architectural practices in the 1960s and '70s. ZZDP steps off from the architect's own responsibility in working to achieve the highest architectural quality. The designer adopts a businesslike and pragmatic role, with ideological and theoretical reflections taking a back seat.

Originally ZZDP specialized mainly in housing and, by extension, facilities indispensable to dwelling. With the collapse of the housing market at the end of the 1970s ZZDP turned to designing offices until housing returned to the portfolio in the '90s.
