**Primary Education in Crisis** - Brahm Fleisch 2008

In the past decade, the national preoccupation has been on the crisis in secondary schools. Lurking behind the intractable problem of low pass rates, the dysfunctional schools and the small number of higher grade mathematics and science graduates is the calamity in primary education. Drawing on the work of researchers in a range of fields including psychology, sociology, anthropology, linguistics, economics, the health sciences, and mathematics education, this book documents the depth and scope of the primary education crisis and provides a comprehensive and rigorous explanation of its causes. Primary education in crisis pulls together the wealth of research on health, poverty, resources, language and teaching as factors in academic achievement in reading, writing and mathematics. At the centre of the book is an analysis of the published studies that systematically document what teachers teach and fail to teach, and why it is that teaching is at the heart of the crisis in primary education. The author suggests that there are no quick fixes, but only hard choices and that, for reform to succeed, it must be evidence-based. **An African Elegy** - Ben Okri 2015-04-30

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

*Born a Crime* - Trevor Noah 2016-11-15

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, *Time*), “poignant” (*Entertainment Weekly*), “soul-nourishing” (*USA Today*) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—*Esquire* Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by *The New York Time*, *USA Today*, *San Francisco Chronicle*, *NPR*, *Esquire*, *Newsday*, and *Booklist* Trevor Noah’s unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a

black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

**Pedagogical Translanguaging** - Jasone Cenoz 2022-01-31

Learning through the medium of a second or additional language is becoming very common in different parts of the world because of the increasing use of English as the language of instruction and the mobility of populations. This situation demands a specific approach that considers multilingualism as its core. Pedagogical translanguaging is a theoretical and instructional approach that aims at improving language and content competences in school contexts by using resources from the learner's whole linguistic repertoire. Pedagogical translanguaging is learner-centred and endorses the support and development of all the languages used by learners. It fosters the development of metalinguistic awareness by softening of boundaries between languages when learning languages and content. This Element looks at the way pedagogical translanguaging can be applied in language and content classes and how it can be valuable for the protection and promotion of minority languages. This title is also available as Open Access on Cambridge Core.

**The Seal of Biliteracy** - Amy J. Heineke 2020-02-01

This edited volume examines the Seal of Biliteracy (SoBL), a relatively new policy initiative that has received little attention in scholarly and practical literature. The contributions seek to expand the literature by presenting case studies of policy implementation in diverse contexts across the United States. This book is organized into four sections: (1) introduction to the SoBL, including history of the policy initiative and national trends in policy design and implementation, (2) case studies of macro-level policy implementation, including a diverse array of contexts across the country that have approached the SoBL in unique ways (e.g., legislation v. educational code, prioritizing world v. home languages), (3) case studies of micro-level implementation, including schools and districts that award the SoBL to diverse student populations through various language programs (e.g., English-dominant v. linguistically diverse; world language v. dual-language programs), and (4) conclusions and future directions, including actionable next steps for policy makers, administrators, educators, and researchers. Members of various professional organizations will benefit from this text, including the National Association for Bilingual Education (NABE), Teachers of English to Speakers of Other Languages (TESOL), the American Council for Teaching of Foreign Languages (ACTFL), as well as participants in local affiliates for bilingual, English as a second language (ESL), and world language education.

*July's People* - Nadine Gordimer 2012-03-15

For years, it has been what is called a 'deteriorating situation'. Now all over South Africa the cities are battlegrounds. The members of the Smales family - liberal whites - are rescued from the terror by their servant, July, who leads them to refuge in his native village. What happens to the Smaleses and to July - the shifts in character and relationships - gives us an unforgettable look into the terrifying, tacit understandings and misunderstandings between blacks and whites.

*My Children! My Africa!* - Athol Fugard 1990

"Generational conflict over the most effective means for ending apartheid in South Africa lead to an explosive confrontation between a gifted but impatient black township youth and his devoted but "old fashioned" black teacher ... The unexpected involvement of a young white woman who befriends and learns from both men strips away the political trappings to reveal the human trauma at the heart of South Africa's ... tragedy."-- Publisher description.

**A Functional Model of Language** - Beverly Derewianka 1992

*Multilingual Education for South Africa* - Kathleen Heugh 1995

This publication sets out to give content to the debate about multilingual

education by providing both a conceptual framework and example of successful practice in bi/multilingual classrooms. Based on the firm belief in the maintenance and development of first-language medium of instruction throughout schooling, and on the need to learn at least a second language, the book argues strongly in favour of a policy of additive bi/multilingualism for formal schooling.

*World Yearbook of Education 2003* - Jill Bourne 2003-12-16

The issues raised by the role of language in education are some of the most important and contentious faced by education systems across the globe. Language is embedded in the concepts of nationhood and identity, and is therefore directly linked to the very social and political fabric of a country. In a climate of increasing globalisation, development and mobility of populations, nations around the world are concerned with the tension between cultivating a sense of cultural and linguistic cohesion and making use of the linguistic diversity that exists in every country and region. This book examines the implications and impacts, the dilemmas and potential for language education in relation to education systems and wider society. Split into three key parts, it considers: \*current issues in language education, including the role of language in maintaining power and inequalities, in encouraging participation and inclusion and in challenging the status quo; \*different approaches to language education around the world; \*the potential for language to provide opportunities for the disadvantaged, illustrated by case studies of three cities. This recent volume of the internationally respected World Yearbook of Education continues the tradition of offering a wide range of international perspectives from leading commentators on a universal concern. The material amassed here will be essential reading for teacher educators, education researchers and school leaders across the world.

**Beginning to Spell** - Rebecca Treiman 1993

This study on the psycholinguistics of spelling supplies the theoretical framework necessary to understand how children's ability to write is related to their ability to speak a language. The importance of learning to spell is highlighted, and the findings presented outline the implications for how spelling should best be taught.
