Travels in Paradox - Claudio Minca 2006-03-30
This innovative volume focuses on tourism through the twin lenses of cultural theory and cultural geography. Presenting a set of innovative case studies on tourist places around the world, the contributors explore the paradoxes of the tourist experience and the implications of these paradoxes for our broader understanding of modern identity as simultaneously grounded and mobile. The book examines how tourism reveals the paradoxical ways that places are both mobile and rooted, real and fake, inhabited by those who are simultaneously insiders and outsiders, and both subjectively experienced and objectively viewed. This rich blend of empirical and theoretical analysis will be invaluable for cultural geographers, anthropologists, and sociologists of tourism.

Preventing Hospital Infections - Sanjay Saint MD, MPH 2014-10-01

Nearly 2 million Americans develop a healthcare-associated infection each year, and some 100,000 of them die as a result. Such infections are highly preventable, particularly through the adoption and implementation of evidence-based methods for reducing patient infection at the point of care. In cases where hospitals fall short of their goals for improving infection prevention, their failures are often rooted in a low rate of staff adherence to the new prevention policies. In easy-to-read, user-friendly language, *Preventing Hospital Infections* leads readers through a step-by-step description of a quality improvement intervention as it might unfold in a model hospital, pinpointing the likely obstacles and offering practical strategies for how to overcome them. The text draws on the extensive personal clinical experience of the authors, including examples, anecdotes, and down-to-earth, practical guidance. Whereas most books focus on the technical aspects of healthcare-associated infections, this book offers the first manual for effecting real, practical change. Whether resistance comes from physicians who distrust change, nurses who want to protect their turf, or infection preventionists who avoid the wards, *Preventing*

Hospital Infections offers an innovative and accessible approach that focuses on navigating the human element in a hospital quality improvement initiative.

Representing Place - Edward S. Casey 2002-01-01

"You are here, a map declares, but of course you are not, any more than you truly occupy the vantage point into which a landscape painting puts you. How maps and paintings figure and reconfigure space--as well as our place in it--is the subject of Edward S. Casey's study, an exploration of how we portray the world and its many places. Casey's discussion ranges widely from Northern Song landscape painting to nineteenth-century American and British landscape painting and photography, from prehistoric petroglyphs and medieval portolan charts to seventeenth-century Dutch cartography and land survey maps of the American frontier. From these culturally and historically diverse forays a theory of representation emerges. Casey proposes that the representation of place in visual works be judged in terms not of resemblance, but of reconnecting with an earth and world that are not the mere content of mind or language--a reconnection that calls for the embodiment and implacement of the human subject." -- Book jacket.

Environmental Practice and Early American Literature - Michael Ziser 2013-07-29

This original and provocative study tells the story of American literary history from the perspective of its environmental context. Weaving together close readings of early

American texts with ecological histories of tobacco, potatoes, apples and honey bees, Michael Ziser presents a method for literary criticism that explodes the conceptual distinction between the civilized and natural world. Beginning with the English exploration of Virginia in the sixteenth century, Ziser argues that the settlement of the 'New World' - and the cultivation and exploitation of its bounty - dramatically altered how writers used language to describe the phenomena they encountered on the frontier. Examining the work of Harriot, Grainger, Cooper, Thoreau and others, Ziser reveals how these authors, whether consciously or not, transcribed the vibrant ecology of North America, and the ways that the environment helped codify a uniquely American literary aesthetic of lasting importance.

A Complicated Legacy - Robert H. Stucky 2014-05-23

If movies and books like Belle, Twelve Years a Slave, The Butler, The Help, A Time to Kill, and Amistad have moved you, you'll love A Complicated Legacy, a novel by Baltimore writer Robert H. Stucky based on the true story of

Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

"The Game" begins when star quarterback Reggie Thomas moves in across the street and takes Tom under his wing, tutoring Tom on the road to the end of innocence. Will the duo score on a last ditch drive to escape with their souls intact, or will they find out how easy it is to get lost in the forbidding world of sex, drugs, and rock and roll? Just as the Stone Age and Ice Age were both lost to history, Tom's diary journals how the Teen Age somehow got lost in history as this page-turner continues to unfold masterfully, sure to leave readers laughing at the anecdotes on an unforgettable journey down memory lane.

Mao's Children in the New China - Yarong Jiang
2013-10-08

Around 18 million young Chinese people were sent to the countryside between 1966 and 1976

as part of the Cultural Revolution. Mao's Children in the New China allows some of them to tell their moving stories in their own voices for the first time. In this inspiring collection of interviews with former Red Guards, members of the first generation to be born under Chairman Mao talk frankly about the dramatic changes which have occurred in China over the last two decades. In discussing the impact these changes have had on their own lives, the former revolutionaries give a direct insight into how ex-Maoists view contemporary China, revealing an attitude perhaps more critical than that of most Western commentators. These poignant memoirs tell the very personal stories of how people from all walks of life were affected by both the cultural revolution and Deng Xiaoping's economic reforms. They cover subjects as diverse as marriage and divorce, the privatization of industry, family relationships, universities and the stock market. Mao's Children in the New China is essential reading for all those interested in learning more about the personal and social history of modern China.

Meet the New Dawn - Rosanne Bittner

Zeke joins the Cheyenne in their last effort to hold on to the freedom they knew until the white man invaded their pristine domain and destroyed their game, their hunting grounds, their beautiful innocence. Meet the New Dawn is a keenly powerful and poignant story about the last years of Zeke and Abbie Monroe's life together, and how their love and their passion for each other lingers on into their twilight years as proof that age and the challenges of life cannot dim the love these two share, a love that causes a man and woman to see each other only as the fifteen-year-old girl who once touched a savage older man's hand over a campfire, a touch that changed both their lives forever. Get out the Kleenex for this powerful read you will never, ever forget! PRAISE: "Power, passion, tragedy, and triumph are Rosanne Bittner's hallmarks. Again and again, she brings readers

Through the pages of an ancient, leather-bound journal, Dave makes contact with an ancestor, James Adams, captain of a seventeenth century sailing-ship. Will the captain's decisions take him and his crew where they want to go? And how will those decisions affect Dave as he makes his way through high school and finds his first summer job? *Pirate Journey* explores the parallel lives of a scurvy sea captain and a high school bully as they make decisions and face the consequences of their choices, both good and bad.

Living Theodrama - Dr Wesley Vander Lugt 2014-04-28

A fresh, creative introduction to theological ethics. Offering an imaginative approach through dialogue with theatrical theory and practice, Vander Lugt demonstrates a new way to integrate actor-oriented and action-oriented approaches to Christian ethics within a comprehensive theodramatic model. This model affirms that life is a drama performed in the company of God and others, providing rich metaphors for relating theology to everyday formation and performance in this drama. This book contains not only a fruitful exchange between theological ethics and theatre, but it also presents a promising method for interdisciplinary dialogue between theology and the arts that will be valuable for students and practitioners across many different fields.

Imagining - Edward S. Casey 2000

Drawing on his own experiences of imagining,

Edward S. Casey describes the essential forms that imagination assumes in everyday life. In a detailed analysis of the fundamental features of all imaginative experience, Casey shows imagining to be eidetically distinct from perceiving and defines it as a radically autonomous act, involving a characteristic freedom of mind.
