Transmission of Light - Keizan 2002-07-16

A translation of the classic *Denkoroku* by one of the premier translators of Buddhist and Taoist texts illustrates how to arrive at the epiphanic Zen awakening known as *satori*. The essential initiatory experience of Zen, *satori* is believed to open up the direct perception of things as they are. "Even if you sit until your seat breaks through, even if you persevere mindless of fatigue, even if you are a person of lofty deeds and pure behavior, if you haven't reached this realm of *satori*, you still can't get out of the prison of the world." Deliberately cultivated and employed to awaken the dormant potency of the mind, *satori* is said to be accessible to all people, transcending time, history, culture, race, gender, and personality. Attributed to the thirteenth-century Zen Master Keizan (1268–1325), *Transmission of Light* (along with *The Blue Cliff Record* and *The Gateless Barrier*) is one of three essential koan texts used by Zen students. Techniques for reaching the enlightening experience of *satori* are revealed through fifty-three short tales about the awakenings of successive generations of masters, beginning with the twelfth-century Zen master Ejo, dharma heir to Dogen. The translator's introduction establishes the context for *Transmission of Light* within the Zen canon and elucidates central themes of the work, including the essential idea

that genuine satori "is not the end of Zen; it is more properly the true beginning."

The Taoist I Ching - Lui I-Ming 2005-05-03

The I Ching , or "Book of Change," is considered the oldest of the Chinese classics and has throughout history commanded unsurpassed prestige and popularity. Containing several layers of text and given numerous levels of interpretation, it has captured continuous attention for well over two thousand years. It has been considered a book of fundamental principles by philosophers, politicians, mystics, alchemists, yogins, diviners, sorcerers, and more recently by scientists and

mathematicians. This first part of the present volume is the text of the I Ching proper—the sixty-four hexagrams plus sayings on the hexagrams and their lines—with the commentary composed by Liu I-ming, a Taoist adept, in 1796. The second part is Liu I-ming's commentary on the two sections added to the I Ching by earlier commentators, believed to be members of the original Confucian school; these two sections are known as the Overall Images and the Mixed Hexagrams. In total, the book illuminates the Taoist inner teachings as practiced in the School of Complete Reality. Well versed in Buddhism and Confucianism as well as Taoism, Liu I-ming intended his work to be read as a guide to comprehensive self-realization while living an ordinary life in the world. In his attempt to lift the veil of mystery from the esoteric language of the I Ching, he employs the terminology of psychology, sociology, history, myth, and religion. This commentary on the I Ching stands as a major contribution to the elucidation of Chinese spiritual genius.

Zen Essence - Thomas Cleary 2000-05-02

Drawn from the records of Chinese Zen masters of the Tang and Song dynasties, this collection may surprise some readers. In contrast to the popular image of Zen as an authoritarian, monastic tradition deeply rooted in Asian culture, these passages portray Zen as remarkably flexible, adaptive to contemporary and individual needs, and transcending cultural boundaries. The readings contained in Zen Essence emphasize that the practice of Zen requires consciousness alone and does not depend on a background in Zen Buddhism and Asian culture. The true essence of Zen resides in the relationship between mind and culture, whatever that culture might be. This unique collection of writings creates a picture of Zen not as a religion or philosophy, but as a practical science of freedom.

Cleary unlocks the mysteries of the Carya-Giti, a collections of teachings by more than twenty famous Siddhas, or Tantric adepts, who lived during the illustrious Pala dynasty of old Bengal. These teachings emanate from one of the most dynamic sources of international Buddhism, at the height of its religious development, and as such, they are completely nonsectarian. Particularly noteworthy is Cleary's demonstration of the parallels between Tantric Buddhism in Old Bengal and the original Zen Buddhism of China.

In Soul of the Samurai, bestselling author and respected translator Thomas Cleary reveals the true essence of the Bushido code or Zen warrior teachings according to 17th-century Japanese samurai master Yagyu Munenori and his Zen teacher Takuan Soho. Zen and the Art of Insight - Thomas Cleary 1999-11-16

The Prajnaparamita ("perfection of wisdom") sutras are one of the great legacies of Mahayana Buddhism, giving eloquent expression to some of that school's central concerns: the perception of shunyata, the essential emptiness of all phenomena; and the ideal of the bodhisattva, one who postpones his or her own enlightenment in order to work for the salvation of all beings. The Prajnaparamita literature consists of a number of texts composed in Buddhist India between 100 BCE and 100 CE. Originally written in Sanskrit, but surviving today mostly in their Chinese versions, the texts are concerned with the experience of profound insight that cannot be conveyed by concepts or in intellectual terms. The material remains important today in Mahayana Buddhism and Zen. Key selections from the Prajnaparamita literature are presented here, along with Thomas Cleary's illuminating commentary, as a means of demonstrating the intrinsic limitations of discursive thought, and of pointing to the profound wisdom that lies beyond it. Included are selections from: • The Scripture on Perfect Insight Awakening to Essence • The Essentials of the Great Scripture on Perfect Insight • Treatise on the Great Scripture on Perfect Insight • The Scripture on Perfect Insight for Benevolent Rulers • Key Teachings on the Great Scripture of Perfect Insight • The Questions of Suvikrantavikramin
