Discovering the Empire of Mali - Philip Wolny 2013-12-15
One of the largest empires the world has ever known, the Empire of Mali flourished in West Africa from 1235 CE until 1464. The empire remains well known for its wealth and

significant cultural influence, still felt hundreds of years later, both in modern Mali and its neighbors. The language, laws, and customs of the Empire of Mali spread throughout West Africa and along the Niger River, creating

an enduring legacy that continues to influence and characterize the region. The empire's rich history, enthralling folklore, transporting art and music, enduring cultural and political influence, and modern-day legacy are all presented here in vivid color and dynamic presentation, with a treasure trove of full-cover photographs, maps, illustrations, and artwork. Among other standards, this text supports Common Core's mandate regarding analyzing the relationship between primary and secondary sources, citing evidence to support analysis of primary and secondary sources, and determining the central ideas or information of a primary or secondary source. [In Search of the Racial Frontier: African Americans in the American West 1528-1990](#) - Quintard Taylor 1999-05-17 Tracing a history often left untouched, a historian explores how whole groups of Africans were absorbed into Native American cultures, and how pioneering blacks laid a

The Portuguese in West Africa, 1415-1670 - Malyn Newitt 2010-06-28

The Portuguese in West Africa, 1415-1670 brings together a collection of documents - all in new English translation - that illustrate aspects of the encounters between the Portuguese and the peoples of North and West Africa in the period from 1400 to 1650. This period witnessed the diaspora of the Sephardic Jews, the emigration of Portuguese to West Africa and the islands, and the beginnings of the black diaspora associated with the slave trade. The documents show how the Portuguese tried to understand the societies

with which they came into contact and to reconcile their experience with the myths and legends inherited from classical and medieval learning. They also show how Africans reacted to the coming of Europeans, adapting Christian ideas to local beliefs and making use of exotic imports and European technologies. The documents also describe the evolution of the black Portuguese communities in Guinea and the islands, as well as the slave trade and the way that it was organized, understood, and justified.

Africa - Maria Grosz-Ngaté
2014-04-18

“Much has changed in Africa and in African studies . . . but one constant has been the enduring excellence of the anthology *Africa*.”

—International Journal of African Historical Studies
Since the publication of the first edition in 1977, *Africa* has established itself as a leading resource for teaching, business, and scholarship. This fourth edition has been

completely revised and focuses on the dynamism and diversity of today’s Africa. The latest volume emphasizes contemporary culture–civil and social issues, art, religion, and the political scene–and provides an overview of significant themes that bear on Africa’s place in the world. Historically grounded, *Africa* provides a comprehensive view of the ways that African women and men have constructed their lives and engaged in collective activities at the local, national, and global levels. “From all indications, the fourth edition of *Africa* should not only endure the test of time, but also be found exceptionally useful by a wide spectrum of scholars, including college professors and their students in general.” —*Africa Today*

The Life and Times of General China - Myles Osborne
2014-10-14

This book's central focus is General China, the most important but controversial

leader of the notorious Mau Mau rebellion that exploded in Kenya colony during the 1950s. We read the story through the lens of China, his memoirs - now published for the first time outside of Kenya -and archival sources, to understand important themes in African history: how Africans fought for the end of colonial rule, and the complex histories of nationalist movements; how Britain tried to handle such resistance; the wider moment of decolonisation on the world stage; and how past conflicts still have contemporary relevance.

Slave Owners of West Africa - Sandra E. Greene 2017-05-22
In this groundbreaking book, Sandra E. Greene explores the lives of three prominent West African slave owners during the age of abolition. These first-published biographies reveal personal and political accomplishments and concerns, economic interests, religious beliefs, and responses to colonial rule in an attempt to understand why the subjects reacted to the demise of

slavery as they did. Greene emphasizes the notion that the decisions made by these individuals were deeply influenced by their personalities, desires to protect their economic and social status, and their insecurities and sympathies for wives, friends, and other associates. Knowing why these individuals and so many others in West Africa made the decisions they did, Greene contends, is critical to understanding how and why the institution of indigenous slavery continues to influence social relations in West Africa to this day.

African American Women of the Old West - Tricia

Martineau Wagner 2007-02-01

The brave pioneers who made a life on the frontier were not only male—and they were not only white. The story of African-American women in the Old West is one that has largely gone untold--until now. The story of ten African-American women is reconstructed from historic documents found in century-old archives. The ten remarkable women in African American Women of the Old West were all born before 1900, some were slaves, some were free, and some lived both ways during their lifetime. Among them were laundresses, freedom advocates, journalists, educators, midwives, business

proprietors, religious converts, philanthropists, mail and freight haulers, and civil and social activists.

Taxing Africa - Mick Moore 2018-07-15

Taxation has been seen as the domain of charisma-free accountants, lawyers and number crunchers - an unlikely place to encounter big societal questions about democracy, equity or good governance. Yet it is exactly these issues that pervade conversations about taxation among policymakers, tax collectors, civil society activists, journalists and foreign aid donors in Africa today. Tax has become viewed as central to African development. Written by leading international experts, Taxing Africa offers a cutting-edge analysis on all aspects of the continent's tax regime, displaying the crucial role such arrangements have on attempts to create social justice and push economic advancement. From tax evasion by multinational corporations and African elites to how ordinary people navigate

complex webs of 'informal' local taxation, the book examines the potential for reform, and how space might be created for enabling locally-led strategies.

Africa in History - Basil Davidson 1968

Arranged chronologically, the essays in this book--each brilliantly introduced by the editor--deal with the way art and culture interact in modern times. Each author focuses on one aspect of modern art and its relation to culture by analyzing, questioning or refuting the ideas about art that people just assume are true. The essays are also grouped into one of four different models used by art theorists today: the formalist (in which the works of art describe the processes of making art), the avant-garde (art that threatens the status quo), the contextualist (in which art can exist only in a specific situation or context), and the post-modernist (stating that art is not completely detached from popular culture). The Black West - William Loren Katz 2019-09-20

This entirely new edition of a famous classic has glorious new photographs—many never before seen—as well as revised and expanded text that deepens our understanding of the vital role played by African American men and women on America's early frontiers. This revised volume includes an exciting new chapter on the Civil War and the experiences of African Americans on the western frontier. Among its fascinating accounts are those explaining how thousands of enslaved people in Arkansas, Missouri and Texas successfully escaped into the neighboring Indian Territory in Oklahoma. These runaways inspired the idea eventually adopted as the Emancipation Proclamation, which freed slaves within the states that were in rebellion. Inspired by a conversation that William Loren Katz had with Langston Hughes, The Black West

presents long-neglected stories of daring pioneers like Nat Love, a.k.a. Deadwood Dick; Mary Fields, a.k.a. Stagecoach Mary; Cranford Goldsby, a.k.a. Cherokee Bill—and a host of other intrepid men and women who marched into the wilderness alongside Chief Osceola, Billy the Kid, and Geronimo.

Africa and the West: A Documentary History -

William H. Worger 2010-02-02
Africa and the West presents a fascinating array of primary sources to engage readers in the history of Africa's long and troubled relationship with the West. Many of the sources have not previously appeared in print, or in books readily available to students. Volume 1 covers two major topics: the Atlantic slave trade and the European conquest. It details the beginnings of the slave trade, slavery as a business, the experiences of slaves, and the effect of abolitionism on the trade, using such documents as a letter from a sixteenth-century African king to the king of Portugal calling

for a more regulated slave trade, and the nineteenth-century testimony of a South African slave accused of treason. The volume also covers the early nineteenth-century considerations of the costs and benefits of colonization, the development of conquest as the century progressed, with special attention to technology, legislation, empire, religion, racism, and violence, through such unusual documents as Cecil Rhodes's will and a chart of the costs of African animals exported to Western zoos.

African American Women Confront the West, 1600-2000 -
Quintard Taylor 2008-08-01
Reconstructs the history of black women's participation in western settlement "A stellar collection of essays by talented authors who explore fascinating topics."—Journal of American Ethnic History
African American Women Confront the West, 1600-2000 is the first major historical anthology on the topic. The editors argue that African American women in the West

played active, though sometimes unacknowledged, roles in shaping the political, ideological, and social currents that have influenced the United States over the past three centuries. Contributors to this volume explore African American women's life experiences in the West, their influences on the experiences of the region's diverse peoples, and their legacy in rural and urban communities from Montana to Texas and from California to Kansas. The essayists explore what it has meant to be an African American woman, from the era of Spanish colonial rule in eighteenth-century New Mexico to the black power era of the 1960s and 1970s.

Abolitionism and Imperialism in Britain, Africa, and the Atlantic - Derek R. Peterson
2010-01-05

The abolition of the slave trade is normally understood to be the singular achievement of eighteenth-century British liberalism. Abolitionism and Imperialism in Britain, Africa, and the Atlantic expands both

the temporal and the geographic framework in which the history of abolitionism is conceived. Abolitionism was a theater in which a variety of actors—slaves, African rulers, Caribbean planters, working-class radicals, British evangelicals, African political entrepreneurs—played a part. The Atlantic was an echo chamber, in which abolitionist symbols, ideas, and evidence were generated from a variety of vantage points. These essays highlight the range of political and moral projects in which the advocates of abolitionism were engaged, and in so doing it joins together geographies that are normally studied in isolation. Where empires are often understood to involve the government of one people over another, Abolitionism and Imperialism shows that British values were formed, debated, and remade in the space of empire. Africans were not simply objects of British liberals' benevolence. They played an active role in shaping, and extending, the values that Britain now regards

as part of its national character. This book is therefore a contribution to the larger scholarship about the nature of modern empires. Contributors: Christopher Leslie Brown, Seymour Drescher, Jonathon Glassman, Boyd Hilton, Robin Law, Phillip D. Morgan, Derek R. Peterson, John K. Thornton

[Africa's Odious Debts](#) - Léonce Ndikumana 2011-10-13

In *Africa's Odious Debts*, Boyce and Ndikumana reveal the shocking fact that, contrary to the popular perception of Africa being a drain on the financial resources of the West, the continent is actually a net creditor to the rest of the world. The extent of capital flight from sub-Saharan Africa is remarkable: more than \$700 billion in the past four decades. But Africa's foreign assets remain private and hidden, while its foreign debts are public, owed by the people of Africa through their governments. Léonce Ndikumana and James K. Boyce reveal the intimate links between foreign loans and

capital flight. Of the money borrowed by African governments in recent decades, more than half departed in the same year, with a significant portion of it winding up in private accounts at the very banks that provided the loans in the first place. Meanwhile, debt-service payments continue to drain scarce resources from Africa, cutting into funds available for public health and other needs. Controversially, the authors argue that African governments should repudiate these 'odious debts' from which their people derived no benefit, and that the international community should assist in this effort. A vital book for anyone interested in Africa, its future and its relationship with the West.

Chocolate Islands - Catherine
Higgs 2012-05-21

In *Chocolate Islands: Cocoa, Slavery, and Colonial Africa*, Catherine Higgs traces the early-twentieth-century journey of the Englishman Joseph Burt to the Portuguese colony of São Tomé and Príncipe—the chocolate islands—through Angola and Mozambique, and finally to British Southern Africa. Burt had been hired by the chocolate firm Cadbury Brothers Limited to determine if the cocoa it was buying from the islands had been harvested by slave laborers forcibly recruited from Angola, an allegation that became one of the grand scandals of the early colonial era. Burt spent six months on São Tomé and Príncipe and a year in Angola. His five-month march across Angola in 1906 took him from innocence and credulity to outrage and activism and ultimately helped change labor recruiting practices in colonial Africa. This beautifully written and engaging travel narrative draws on collections in Portugal, the United Kingdom, and Africa to explore British and Portuguese attitudes

toward work, slavery, race, and imperialism. In a story still familiar a century after Burt's sojourn, *Chocolate Islands* reveals the idealism, naivety, and racism that shaped attitudes toward Africa, even among those who sought to improve the conditions of its workers.

Spectres from the Past -

Portia Owusu 2019-12-20

Spectres from the Past: The "History" of Slavery in West African and African-American Narratives examines the merit of the claim that West African writers, in comparison to African-American authors, deliberately expunge the history of slavery from literary narratives. The book explores slavery in contemporary West African and African-American literature by looking at the politics of history and memory. It interrogates notions of History and memory by considering the possibility that shared traumas, such as West African and African-American experiences of slavery, can be remembered and historicised differently, according to critical

factors such as socio-economic realities, cultural beliefs and familial traditions. At the heart of the book are compelling and new readings of slavery in six literary narratives that draws on cultural philosophies, musicology and linguistics to demonstrate diverse and unusual ways that Black writers in West Africa and North America write about slavery in literature.
