Hedging Currency Exposures - Brian Coyle 2000

◆ Fully updated version of text formerly used for training by BPP ◆ Diagrammatic representation of deal structures, pricing, and modeling ◆ Full glossary of terms ◆ International perspective, examples in US\$ ◆ Clear logical explanation of processes, markets, and products This manual explains the techniques for identifying and covering exposure to adverse movements in foreign exchange rates. It provides practical examples of transaction, translation, and economic risk and shows how a hedging strategy can be arrived at. The hedging strategy will depend upon whether the attitude to risk is adverse, seeking, or neutral. This book examines these attitudes in turn and compares these hedging methods through worked examples. Also included is an analysis of accounting and tax implications. This expansive new range of risk management texts has undergone extensive re-writing to give each book in the series an international perspective. Each explains and analyses core aspects of risk assessment and management in a way invaluable to students and useful to practitioners. All of these titles adopt a practical and clear approach to their subject. All are fully updated versions of a series of books previously produced by training experts at BPP.

Tsunami Recovery in Sri Lanka - Dennis B. McGilvray 2013-05-13

The Indian Ocean Tsunami, which devastated 70 percent of Sri Lanka's coastline and killed an estimated 35,000 people, was remarkable both for the magnitude of the disaster and for the unprecedented scale of the relief and recovery operations mounted by national and international agencies. The reconstruction process was soon hampered by political patronage, by the competing efforts of hundreds of foreign humanitarian organizations, and by the ongoing civil war. The book is framed within this larger political and social context, offering descriptions and comparisons between two regions (southwest vs. eastern coast) and four ethnic communities (Sinhalese, Tamils, Muslims, and Burghers) to illustrate how disaster relief unfolded in a culturally pluralistic political landscape. Approaching the issue from four disciplinary perspectives - anthropology, demography, political science, and disaster studies - chapters by experts in the field analyse regional and ethnic patterns of post-tsunami reconstruction according to different sectors of Sri Lankan society. Demonstrating the key importance of comprehending the local cultural contexts of disaster recovery processes, the book is a timely and useful contribution to the existing literature.

Participatory Action Research and Educational Development - Huma Kidwai 2017-04-11

This volume brings together diverse thinkers and practitioners on Participatory Action Research (PAR) and educational development in South Asia. Contributors draw from their research and field experiences on how PAR is currently being understood, theorized, debated, and implemented for education of children in South Asia. This book will act as a key reference text for academics, students, and practitioners interested in the intersection of education and participatory development in the region. The book opens a constructive debate on PAR approaches to education and proposes a reflective framework that allows the reader to develop their perspectives about the conceptual, methodological, and sociopolitical potential and limitations of participatory approaches.

A Thematic Commentary on the Qur'an - Muḥammad Ghazali 2000

In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to

intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

The Sri Lankan Economy - Prema-chandra Athukorala 2017-10-01

This is a pivotal period in Sri Lanka's economic development. The end of conflict opens a door for accelerated economic growth and poverty reduction. Reform is needed to regain momentum because fiscal imbalances and rising public debt could jeopardize macroeconomic stability. The economy would benefit from significant trade and commercial policy reform. The labor market suffers from sluggish growth of formal sector employment and from skills mismatches, which can be addressed by changes in education policy and systems. The book analyzes these and related critical constraints on the Sri Lankan economy, and proposes a set of policy reforms that would lay the foundations for more rapid and inclusive development.

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

WHO Guidelines for Indoor Air Quality - World Health Organization 2010

This book presents WHO guidelines for the protection of public health from risks due to a number of
chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon
monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially
benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in
respect of their hazardousness to health and are often found indoors in concentrations of health concern.
The guidelines are targeted at public health professionals involved in preventing health risks of
environmental exposures, as well as specialists and authorities involved in the design and use of buildings,
indoor materials and products. They provide a scientific basis for legally enforceable standards.
