The Rise and Fall of Communism - Archie Brown 2009-10-13

Published to coincide with the twentieth anniversary of the fall of the Berlin Wall — a definitive and ground-breaking account of the revolutionary ideology that changed the modern world. The inexorable rise of Communism was the most momentous political phenomenon of the first half of the twentieth century. Its demise in Europe and its decline elsewhere have produced the most profound political changes of the last few decades. In this illuminating book, based on forty years of study and a wealth of new sources, Archie Brown provides a comprehensive history as well as an original and highly readable analysis of an ideology that has shaped the world and still rules over a fifth of humanity. A compelling new work from an internationally renowned specialist, *The Rise and Fall of Communism* promises to be the definitive study of the most remarkable political and human story of our times.

Lenin, Stalin, and Hitler - Robert Gellately 2009-11-11

A bold new accounting of the great social and political upheavals that enveloped Europe between 1914 and 1945—from the Russian Revolution through the Second World War. In *Lenin, Stalin, and Hitler*, acclaimed historian Robert Gellately focuses on the dominant powers of the time, the Soviet Union and Nazi Germany, but also analyzes the catastrophe of those years in an effort to uncover its political and ideological nature. Arguing that the tragedies endured by Europe were inextricably linked through the dictatorships of Lenin, Stalin, and Hitler, Gellately explains how the pursuit of their “utopian” ideals turned into dystopian

nightmares. Dismantling the myth of Lenin as a relatively benevolent precursor to Hitler and Stalin and contrasting the divergent ways that Hitler and Stalin achieved their calamitous goals, Gellately creates in Lenin, Stalin, and Hitler a vital analysis of a critical period in modern history.

OCR A Level History: The Cold War in Asia 1945-1993 and the Cold War in Europe 1941-1995 - Nicholas Fellows 2018-08-28

Lenin and the Russian Revolution - Steve Phillips 2000

A study of Lenin and the Russian Revolution. It is designed to fulfil the AS and A Level specifications in place from September 2000. The AS section deals with narrative and explanation of the topic. There are extra notes, biography boxes and definitions in the margin, and summary boxes to help students assimilate the information. The A2 section reflects the different demands of the higher level examination by concentrating on analysis and historians' interpretations of the material covered in the AS section. There are practice questions and hints and tips on what makes a good answer.

Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan [Illustrated Edition] - Dr. Robert F. Baumann 2015-11-06

[Includes 12 maps and 4 tables] In recent years, the U.S. Army has paid increasing attention to the conduct of unconventional warfare. However, the base of historical experience available for study has been largely American and overwhelmingly Western. In Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan, Dr. Robert F. Baumann makes a significant contribution to the expansion of that base with a well-researched analysis of four important episodes from the Russian-Soviet experience with unconventional wars. Primarily employing Russian sources, including important archival documents only recently declassified and made available to Western scholars, Dr. Baumann provides an insightful look at the Russian conquest of the Caucasian mountaineers (1801-59), the subjugation of Central Asia (1839-81), the reconquest of Central Asia by the Red Army (1918-33), and the Soviet war in Afghanistan (1979-89). The history of these wars—especially as it relates to the battle tactics, force structure, and strategy employed in them—offers important new perspectives on

elements of continuity and change in combat over two centuries. This is the first study to provide an in-depth examination of the evolution of the Russian and Soviet unconventional experience on the predominantly Muslim southern periphery of the former empire. There, the Russians encountered fierce resistance by peoples whose cultures and views of war differed sharply from their own. Consequently, this Leavenworth Paper addresses not only issues germane to combat but to a wide spectrum of civic and propaganda operations as well.

Russia Under Tsarism and Communism 1881-1953 - Chris Corin 2011-01-01

This volume is a comprehensive advanced core text on Russia from 1881 to the death of Stalin. It is a second edition of the bestselling *Communist Russia under Lenin and Stalin*. This second edition is extended to cover the Tsarist pre-revolutionary period. It offers students an insight into - the nature of Tsarist rule in Russia and the causes and consequences of the 1905 revolution; - the causes and consequences of the Russian Revolution in 1917; - the nature, the achievements and failures of Lenin's and Stalin's Communist regimes; - the ongoing historiographical debate about this period and the current reinterpretations of it. Other improvements for this second edition include more streamlined coverage of Stalin's foreign policy.

The Psychology of Radical Social Change - Brady Wagoner 2018-04-03

Since 2011 the world has experienced an explosion of popular uprisings that began in the Middle East and quickly spread to other regions. What are the different social-psychological conditions for these events to emerge, what different trajectories do they take, and how are they represented to the public? To answer these questions, this book applies the latest social psychological theories to contextualized cases of revolutions and uprisings from the eighteenth to the twenty-first century in countries around the world. In so doing, it explores continuities and discontinuities between past and present uprisings, and foregrounds such issues as the crowds, collective action, identity changes, globalization, radicalization, the plasticity of political behaviour, and public communication.

Empires at War - Robert Gerwarth 2014-07-03

Empires at War, 1911-1923 offers a new perspective on the history of the Great War. It expands the story of the war both in time and space to include the violent conflicts that preceded and followed the First World War, from the 1911 Italian invasion of Libya to the massive violence that followed the collapse of the Ottoman, Russian, and Austrian empires until 1923. It also presents the war as a global war of empires rather than a European war between nation-states. This volume tells the story of the millions of imperial subjects called upon to defend their imperial governments' interest, the theatres of war that lay far beyond Europe, and the wartime roles and experiences of innumerable peoples from outside the European continent. *Empires at War* covers the broad, global mobilizations that saw African soldiers and Chinese labourers in the trenches of the Western Front, Indian troops in Jerusalem, and the Japanese military occupying Chinese territory. Finally, the volume shows how the war set the stage for the collapse not only of specific empires, but of the imperial world order writ large.

[The Gates of Europe](#) - Serhii Plokhyy 2015-12-01

Ukraine is currently embroiled in a tense battle with Russia to preserve its economic and political independence. But today's conflict is only the latest in a long history of battles over Ukraine's existence as a sovereign nation. As award-winning historian Serhii Plokhyy argues in *The Gates of Europe*, we must examine Ukraine's past in order to understand its fraught present and likely future. Situated between Europe, Russia, and the Asian East, Ukraine was shaped by the empires that have used it as a

strategic gateway between East and West—from the Romans and Ottomans to the Third Reich and the Soviet Union, all have engaged in global fights for supremacy on Ukrainian soil. Each invading army left a lasting mark on the landscape and on the population, making modern Ukraine an amalgam of competing cultures. Authoritative and vividly written, *The Gates of Europe* will be the definitive history of Ukraine for years to come.

Soviet Union - Raymond E. Zickel 1991

The Cambridge History of America and the World: Volume 3, 1900-1945 - Brooke L. Blower 2021-11-30

The third volume of *The Cambridge History of America and the World* covers the volatile period between 1900 and 1945 when the United States emerged as a world power and American engagements abroad flourished in new and consequential ways. Showcasing the most innovative approaches to both traditional topics and emerging themes, leading scholars chart the complex ways in which Americans projected their growing influence across the globe; how others interpreted and constrained those efforts; how Americans disagreed with each other, often fiercely, about foreign relations; and how race, religion, gender, and other factors shaped their worldviews. During the early twentieth century, accelerating forces of global interdependence presented Americans, like others, with a set of urgent challenges from managing borders, humanitarian crises, economic depression, and modern warfare to confronting the radical, new political movements of communism, fascism, and anticolonial nationalism. This volume will set the standard for new understandings of this pivotal moment in the history of America and the world.

Pearson Edexcel a Level Politics - Sarra Jenkins 2019-05-31

Exploring Design and Technology for Key Stage 3 - Paul Anderson 2020-06-29

Develop knowledge, understanding and designing and making skills through Key Stage 3 so students are ready for the new GCSE in Design and Technology, with our brand-new Student Book. With topics directly linked to the new GCSE (9-1) specifications, *Exploring Design and Technology* will build a solid foundation by boosting your students' understanding of the key concepts, introducing them to important terminology and developing their practical skills through Key Stage 3. · Build understanding through years 7, 8 and 9 with engaging, carefully timed and level-appropriate lessons that draw on the GCSE subject content. · Develop practical skills with a variety of creative designing and making activities that use a wide range of materials, tools, equipment and processes. · Boost knowledge with clear explanations of important terminology and concepts that students will need to apply when identifying design problems, understanding user needs and developing design solutions in a range of contexts. · Encourage subject interest with 'find out more' - research features that broaden understanding of materials and their working properties, new technologies and the wider influences on designing and making. · Monitor and measure student progress with knowledge check questions provided for every topic.

[Lenin on the Train](#) - Catherine Merridale 2017-03-28

"A gripping, meticulously researched account of Lenin's fateful rail

journey from Zurich to Petrograd, where he ignited the Russian Revolution and forever changed the world. In April 1917, as the Russian Tsar Nicholas II's abdication sent shockwaves across war-torn Europe, the future leader of the Bolshevik revolution Vladimir Lenin was far away, exiled in Zurich. When the news reached him, Lenin immediately resolved to return to Petrograd and lead the revolt. But to get there, he would have to cross Germany, which meant accepting help from the deadliest of Russia's adversaries. Germany saw an opportunity to further destabilize Russia by allowing Lenin and his small group of revolutionaries to return. Now, drawing on a dazzling array of sources and never-before-seen archival material, renowned historian Catherine Merridale provides a riveting, nuanced account of this enormously consequential journey--the train ride that changed the world--as well as the underground conspiracy and subterfuge that went into making it happen. Writing with the same insight and formidable intelligence that distinguished her earlier works, she brings to life a world of counter-espionage and intrigue, wartime desperation, illicit finance, and misguided utopianism. This was the moment when the Russian Revolution became Soviet, the genesis of a system of tyranny and faith that changed the course of Russia's history forever and transformed the international political climate"--

Making Sense of History - John D. Clare 2014-09-26

Deliver engaging, enquiry-driven lessons and help pupils gain a coherent chronological understanding of and across periods studied with this complete offering for Key Stage 3 History. Designed for the 2014 National Curriculum this supportive learning package makes history fun and inspiring to learn. Making Sense of History consists of four Pupil's Books with accompanying Dynamic Learning Teaching and Learning resources. Structured around big picture overviews and in-depth enquiries on different topics, the course develops pupils understanding of history and their ability to ask and explore valid historical questions about the past. - Help pupils come to a sound chronological understanding of the past and identify the most significant events, connections and patterns of change and continuity with specifically tailored big pictures of the period and of the topics within it. - Develop pupils' enquiry skills and help them become motivated and curious to learn about the past with purposeful and engaging enquiries and a focus on individuals' lives. - Ensure pupils' progress in their historical thinking through clear and balanced targeted coverage of the main second order concepts in history. - Support and stretch your pupils with differentiated material, including writing frames to support literacy and ideas for more challenge provided in the Dynamic Learning Teaching and Learning Resources. - Make assessment become a meaningful and manageable process through bespoke mark schemes for individual pieces of work.
