Tools for Conflict Resolution - Ellen M. O'Keefe 2004

Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? Tools for Conflict Resolution is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict, and these tools are used each time conflict arises that soon students become proficient conflict managers.

This book begins with a chapter, which introduces Peter Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans, which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role- plays, skits, literature, songs, and co-operative learning activities are the primary instructional methods used to teach students conflict

resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class.

Intercultural Mediation and Conflict Management Training - Claude-Hélène Mayer 2021-01-23

This book introduces the topic of intercultural mediation and conflict management. Based on the latest scientific research and successful conflict management practices, it provides theoretical insights and practical, self-reflective exercises, role-plays and case studies on conflict, mediation, intercultural mediation, and solution-finding in conflict mediation. The book serves both as a self-learning tool to expand personal competences and cultural sensitivity, and as training material for seminars, workshops, secondary, advanced and higher education and vocational training. It is a valuable contribution to the fields of intercultural conflict mediation and conflict management, intercultural communication, intercultural training and coaching. This is a book about practicing - the applied practice of competent conflict crafts in diverse intercultural contexts. Conflict practitioners, mediators, and intercultural trainers would be inspired by Professor Claude-Hélène Mayer's creative integration of relevant intercultural models with do-able conflict strategies and in reaching intergroup harmony with reflexivity and

cultural resonance. --- Professor Stella Ting-Toomey, Human Communication Studies, California State University at Fullerton, USA, and Co-Editor of The SAGE Handbook of Conflict Communication, 2e Given the difficulty and complexity of successful intercultural collaboration and conflict mediation, this is a much-needed addition to cross-cultural positive psychology. It is rich in content and training. I highly recommend it for teaching, corporate training, and for executive coaches. --- Professor Paul T.P. Wong, President International Network on Personal Meaning and President Meaning-Centered Counselling Institute, Toronto, Canada Intercultural conflict resolution is a critically important task in this modern world. This book by Professor Mayer is a welcome handbook on how to use mediation to resolve those conflicts. It should be in the library of every conflict mediator. My congratulations to Professor Mayer for her important work. --- Dan Landis, Founding President, International Academy of Intercultural Research, Affiliate Professor of Psychology, University of Hawaii
