*Communities in Contemporary Anglophone Caribbean Short*

*Stories* - Lucy Evans 2014

This book examines the representation of community in contemporary Anglophone Caribbean short stories, focusing on the most recent wave of Anglophone Caribbean short story writers following the genre's revival in the mid-1980s. The first extended study of Caribbean short stories, it presents the phenomenon of interconnected stories as a significant feature of late twentieth- and early twenty-first-century

Anglophone Caribbean literary cultures. Lucy Evans contends that the short story collection and cycle, literary forms regarded by genre theorists as necessarily concerned with representations of community, are particularly appropriate and enabling as a vehicle through which to conceptualise Caribbean communities. The book covers short story collections and cycles by Olive Senior, Earl Lovelace, Kwame Dawes, Alecia McKenzie, Lawrence Scott, Mark McWatt, Robert Antoni and Dionne Brand, and argues that the form of interconnected stories is a crucial part of these writers' imagining of communities, which may be fractured, plural and fraught with tensions, but which nevertheless hold together. The book takes an interdisciplinary approach to the study of community, bringing literary representations of community into dialogue with models of community developed in the field of Caribbean anthropology. The works analysed are set in Trinidad,

Jamaica and Guyana, and in several cases the setting extends to the Caribbean diaspora in Europe and North America. Looking in turn at rural, urban, national and global communities, the book draws attention to changing conceptions of community around the turn of the millennium.

*Yankee Family* - James McGovern 2017-09-29

The voluminous records of the Pierce and Poor families weave a story that runs from the late eighteenth century until World War I. The extent and quality of their source materials, and their positions as representative middle-class to upper-middle-class New England families, make these subjects of *Yankee Family* particularly well suited for analyzing processes of continuity and change. McGovern reviews the lifestyles of the Pierce and Poor families both on the frontier and in the Boston area, and focuses on the cross-generational changes in these

styles. The study begins with John Pierce at Harvard in the 1790s and follows through to the first decade of the twentieth century. The author shows how the "Yankee" mentality, an outgrowth of New England Puritanism, contributed to the family's rise to success, but concludes that by the early twentieth century the Yankee life-style was ending, a victim of social and economic changes in American society that were rendering it irrelevant. Until recently historical scholarship on the American family has been static. Apart from long-standing predilections of historians for political history, there were also theoretical and methodological problems deterring scholarship on the American family. But McGovern's approach holds great promise; it is more sensitive than quantification studies to the impact of change on a wider range of human experiences because it is inevitably more personal. While this type of family history rewards students of social

change, it also affords important insights on continuity. It reveals the existence of a family style which adapts to change with a special corpus of family wisdom, always finding a way to exercise its "known" amidst constant flux ? thus mitigating some of the effects of change.
