**The Making of Law** - William Suarez-Potts  
2012-09-26

Despite Porfirio Díaz's authoritarian rule (1877-1911) and the fifteen years of violent conflict typifying much of Mexican politics after 1917, law and judicial decision-making were important for the country's political and

economic organization. Influenced by French theories of jurisprudence in addition to domestic events, progressive Mexican legal thinkers concluded that the liberal view of law—as existing primarily to guarantee the rights of individuals and of private property—was inadequate for solving the "social question"; the

aim of the legal regime should instead be one of harmoniously regulating relations between interdependent groups of social actors. This book argues that the federal judiciary's adjudication of labor disputes and its elaboration of new legal principles played a significant part in the evolution of Mexican labor law and the nation's political and social compact. Indeed, this conclusion might seem paradoxical in a country with a civil law tradition, weak judiciary, authoritarian government, and endemic corruption. Suarez-Potts shows how and why judge-made law mattered, and why contemporaries paid close attention to the rulings of Supreme Court justices in labor cases as the nation's system of industrial relations was established.

**World Editors** - Gustavo Guerrero 2020-12-16  
The existence of World Literature depends on specific processes, institutions, and actors involved in the global circulation of literary works. The contributions of this volume aim to pay attention to these multiple material dimensions of Latin American 20th and 21st century literatures. From perspectives informed by materialism, sociology, book studies, and

digital humanities, the articles of this volume analyze the role of publishing houses, politics of translation, mediators and gatekeepers, allowing insights into the processes that enable books to cross borders and to be transformed into globally circulating commodities. The book focusses both on material (re)sources of literary archives, key actors in literary and cultural markets, prizes and book fairs, as well as on recent dimension of the digital age. Statements of some of the leading representatives of the global publishing world complement these analyses of the operations of selection and aggregation of value to literary texts.

Net Neutrality Compendium - Luca Belli  
2015-11-17

The ways in which Internet traffic is managed have direct consequences on Internet users' rights as well as on their capability to compete on a level playing field. Network neutrality mandates to treat Internet traffic in a non-discriminatory fashion in order to maximise end users' freedom and safeguard an open Internet. This book is the result of a collective work aimed at providing deeper insight into what is network neutrality, how does it relates to human rights and free competition and how to properly frame

this key issue through sustainable policies and regulations. The Net Neutrality Compendium stems from three years of discussions nurtured by the members of the Dynamic Coalition on Network Neutrality (DCNN), an open and multi-stakeholder group, established under the aegis of the United Nations Internet Governance Forum (IGF).

Making Waves - Alfonso Gumucio Dagron 2001

**Child Discourse** - Susan Ervin-Tripp  
2014-05-19

Child Discourse contains papers presented in a symposium on child discourse at the annual meeting of the American Anthropological Association in Mexico City in November 1974. Three other papers, one presented by Edelsky at the same meeting, and two by Dore and Garvey, are also included to broaden the scope of methods and issues considered. Organized into three parts, this book generally aims at describing and analyzing social and linguistic

knowledge of a child in utilizing language to project socially appropriate identities and to engage in purposive social acts. Part I focuses on children's speech events, while Part II centers more on function and act. The last part takes into consideration the social aspect of language usage among children.

**The Dare** - Harley Laroux 2021-01-26  
Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her

nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes within: erotic

humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

**Handbook of Spanish-English Translation** - Lucia V. Aranda 2007

The Handbook of Spanish-English Translation is a lively and accessible book for students interested in translation studies and Spanish. This book details the growth of translation studies from Cicero to postcolonial interpretations of translation as rewriting. It examines through examples the main issues involved in translation and interpretation, such as text types, register, interference, equivalence, and untranslatability. The chapters on interpretation and audiovisual translation and the comparative analysis of Spanish and English are especially significant. The second part of the

book offers a rich compilation of diverse Spanish and English texts (academic, literary, and government writings, comic strips, brochures, movie scripts, and newspapers) and their published translations, each with a brief introduction by Professor Aranda.

**The Future of the Internet--And How to Stop It** - Jonathan Zittrain 2008-10-01

This extraordinary book explains the engine that has catapulted the Internet from backwater to ubiquity—and reveals that it is sputtering precisely because of its runaway success. With the unwitting help of its users, the generative

Internet is on a path to a lockdown, ending its cycle of innovation—and facilitating unsettling new kinds of control. iPods, iPhones, Xboxes, and TiVos represent the first wave of Internet-centered products that can't be easily modified by anyone except their vendors or selected partners. These “tethered appliances” have already been used in remarkable but little-known ways: car GPS systems have been reconfigured at the demand of law enforcement to eavesdrop on the occupants at all times, and digital video recorders have been ordered to self-destruct thanks to a lawsuit against the manufacturer thousands of miles away. New Web 2.0 platforms like Google mash-ups and Facebook are rightly touted—but their applications can be similarly monitored and eliminated from a central source. As tethered appliances and applications eclipse the PC, the very nature of the Internet—its “generativity,” or innovative character—is at risk. The Internet's current trajectory is one of lost opportunity. Its

salvation, Zittrain argues, lies in the hands of its millions of users. Drawing on generative technologies like Wikipedia that have so far survived their own successes, this book shows how to develop new technologies and social structures that allow users to work creatively and collaboratively, participate in solutions, and become true “netizens.”

Proof and Proving in Mathematics Education -

Gila Hanna 2012-06-14

\*THIS BOOK IS AVAILABLE AS OPEN ACCESS BOOK ON SPRINGERLINK\* One of the most significant tasks facing mathematics educators is to understand the role of mathematical reasoning and proving in mathematics teaching, so that its presence in instruction can be enhanced. This challenge has been given even greater importance by the assignment to proof of a more prominent place in the mathematics curriculum at all levels. Along with this renewed emphasis, there has been an upsurge in research on the teaching and learning of proof at all

grade levels, leading to a re-examination of the role of proof in the curriculum and of its relation to other forms of explanation, illustration and justification. This book, resulting from the 19th ICMI Study, brings together a variety of viewpoints on issues such as: The potential role of reasoning and proof in deepening mathematical understanding in the classroom as it does in mathematical practice. The developmental nature of mathematical reasoning and proof in teaching and learning from the earliest grades. The development of suitable curriculum materials and teacher education programs to support the teaching of proof and proving. The book considers proof and proving as complex but foundational in mathematics. Through the systematic examination of recent research this volume offers new ideas aimed at enhancing the place of proof and proving in our classrooms.

[Harp and the Shadow](#) - Alejo Carpentier 2007-10-01

An extraordinary display of historical inquisitiveness and stylistic maturity.-The New York Times Book Review Exploring the consequences of the European discovery of the Americas and challenging the myth of Columbus, Alejo Carpentier-the father of magical realism-studies the first meetings of the Western and American cultures and the tragic consequences of tarnished and abandoned idealism. Alejo Carpentier (1904\_ 1980) is considered one of

the fathers of modern Latin American literature. He lived in Cuba, France, and Venezuela.

**Sensible Life** - Emanuele Coccia 2016-02-29

We like to imagine ourselves as rational beings who think and speak, yet to live means first and foremost to look, taste, feel, or smell the world around us. But sensibility is not just a faculty: We are sensible objects both to ourselves and to others, and our life is through and through a sensible life. This book, now translated into five languages, rehabilitates sensible existence from its marginalization at the hands of modern philosophy, theology, and politics. Coccia begins by defining the ontological status of images. Not just an internal modification of our consciousness, an image has an intermediate ontological status that differs from that of objects or subjects. The book's second part explores our interactions with images in dream,

fashion, and biological facts like growth and generation. Our life, Coccia argues, is the life of images.

**Science and Theology** - J. C. Polkinghorne  
1998-01-01

In this short masterpiece, eminent scientist and theologian John Polkinghorne offers an accessible, yet authoritative, introduction to the stimulating field of science and theology. After surveying their volatile historical relationship, he leads the reader through the whole array of questions at the nexus of the scientific and religious quests. A lucid and lively writer, Polkinghorne provides a marvelously clear overview of the major elements of current science (including quantum theory, chaos theory, time, and cosmology). He then offers a concise outline of the character of religion and shows the joint potential of science of religion to illumine some of the thorniest issues in theology today: creation, the nature of knowledge, human and divine identity and agency. Polkinghorne

aply demonstrates that a sturdy faith has nothing to fear and much to gain from an intellectually honest appraisal of the new horizons of contemporary science.

Pattern Poetry - Dick Higgins 1987-01-01

Practice-as-Research - L. Allegue 2009-08-11  
Practice-as-Research: In Performance and Screen presents a thoroughgoing exploration of the major fissures of established knowledge created by a new trans-disciplinary, worldwide project for the twenty-first century. Focussing on the most fleeting and yet pervasive practices of the performance and screen arts, it both documents and analyses the practical-theoretical integration of hands-on creative and scholarly methods of research. Through an innovative combination of manuscript, catalogue and digital multi-media formats, it aims to embody the principles of performance and screen practice-as-research in its structure and design - making book pages and DVD images mutually

illuminating. With over fifty practitioner-researcher contributors, Practice-as-Research constitutes the most comprehensive presentation of this sometimes controversial and frequently fresh way of doing things with an imaginative convergence of artistic and scholarly processes.

A Technological History of Motion Pictures and Television - Raymond Fielding 1967

**Women, Politics, and Democracy in Latin America** - Tomáš Došek 2017-01-04

This book discusses the current tendencies in women's representation and their role in politics in Latin American countries from three different perspectives. Firstly, the authors examine cultural, political-partisan and organizational obstacles that women face in and outside institutions. Secondly, the book explores barriers in political reality, such as gender legislation implementation, public administration and

international cooperation, and proposes solutions, supported by successful experiences, emphasising the nonlinearity of the implementation process. Thirdly, the authors highlight the role of women in politics at the subnational level. The book combines academic expertise in various disciplines with contributions from practitioners within national and international institutions to broaden the reader's understanding of women in Latin American politics.

Kumamoto Artpolis - 1993

All the Difference in the World - Natalie Melas  
2007

This book is about culture and comparison. Starting with the history of the discipline of comparative literature and its forgotten relation to the positivist comparative method, it inquires into the idea of comparison in a postcolonial world. Comparison was Eurocentric by exclusion when it applied only to European literature, and

Eurocentric by discrimination when it adapted evolutionary models to place European literature at the forefront of human development. This book argues that inclusiveness is not a sufficient response to postcolonial and multiculturalist challenges because it leaves the basis of equivalence unquestioned. The point is not simply to bring more objects under comparison, but rather to examine the process of comparison. The book offers a new approach to the either/or of relativism and universalism, in which comparison is either impossible or assimilatory, by focusing instead on various forms of “incommensurability”—comparisons in which there is a ground for comparison but no basis for equivalence. Each chapter develops a particular form of such cultural comparison from readings of important novelists (Joseph Conrad, Simone Schwartz-Bart), poets (Aimé Césaire, Derek Walcott), and theorists (Edouard Glissant, Jean-Luc Nancy).

**Theodicy** - Wilhelm Leibniz 2014-05-01  
Leibniz was above all things a metaphysician. That does not mean that his head was in the clouds, or that the particular sciences lacked interest for him. Not at all—he felt a lively concern for theological debate, he was a mathematician of the first rank, he made original contributions to physics, he gave a realistic attention to moral psychology. But he was incapable of looking at the objects of any special enquiry without seeing them as aspects or parts of one intelligible universe. He strove constantly after system, and the instrument on which his effort relied was the speculative reason. He embodied in an extreme form the spirit of his age. Nothing could be less like the spirit of ours. To many people now alive metaphysics means a body of wild and meaningless assertions resting

on spurious argument. A professor of metaphysics may nowadays be held to deal handsomely with the duties of his chair if he is prepared to handle metaphysical statements at all, though it be only for the purpose of getting rid of them, by showing them up as confused forms of something else. A chair in metaphysical philosophy becomes analogous to a chair in tropical diseases: what is taught from it is not the propagation but the cure.

*LEXeter '83: proceedings* - Reinhard R. K. Hartmann 2017-12-04

Lexicographica. Series Maior features monographs and edited volumes on the topics of lexicography and meta-lexicography. Works from the broader domain of lexicology are also included, provided they strengthen the theoretical, methodological and empirical basis of lexicography and meta-lexicography. The almost 150 books published in the series since its founding in 1984 clearly reflect the main themes and developments of the field. The

publications focus on aspects of lexicography such as micro- and macrostructure, typology, history of the discipline, and application-oriented lexicographical documentation.

**Last Night I Dreamt I Was a DJ** - Frank Baez  
2014-11-20

Miami, FL's Jai-Alai Books proudly presents, Last Night I Dreamt I Was a DJ (2014), Frank Bez's debut volume of poetry in English, translated by P. Scott Cunningham and Hoyt Rogers. A former resident of Chicago, Bez's poetry highlights the deep connections between the United States and the Dominican Republic. He celebrates the lyrical possibilities of Santo Domingo, while also

lamenting its systemic failures. He delights in the cultural influence of the United States, while also recognizing the failed exportation of the American dream. Most of all, though, Bez's poems are funny. They laugh at the spectacle of their creator and his struggle to exist as a poet in world hostile to poetry, and they dare to talk back to capitalism with the voices of the voiceless: the poor, working class people haunting the streets of Santo Domingo "like a new Night of the Living Dead sequel."
