Intelligent Projects Using Python - Santanu Pattanayak 2019-01-31

Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive

using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Dead Lies Dreaming - Charles Stross 2020-10-27

When magic and superpowers emerge in the masses, Wendy Deere is contracted by the government to bag and snag supervillains in Hugo Award-winning author Charles Stross' *Dead Lies Dreaming: A Laundry Files Novel*. As Wendy hunts down Imp—the cyberpunk head of a band calling themselves “The Lost Boys”— she is dragged into the schemes of louche billionaire Rupert de Montfort Bigge. Rupert has discovered that the sole surviving copy of the long-lost concordance to the one true Necronomicon is up for underground auction in London. He hires Imp’s sister, Eve, to procure it by any means necessary, and in the process, he encounters Wendy Deere. In a tale of corruption, assassination, thievery, and magic, Wendy Deere must navigate rotting mansions that lead to distant pasts, evil tycoons, corrupt government officials, lethal curses, and her own moral qualms in order to make it out of this chase alive. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Old West Skirmish Wargames - John Curry 2017-05-30

These classic rules launched skirmish wargaming in the UK and the North America. They were played in most wargaming clubs on a regular basis. From stage coach robberies to recreations of gunfights from the pages of history, these rules introduced wargaming with individual figures. This edition includes many previously unpublished chapters.

These rules have all that is required to recreate the American Wild West on the table top. Bank robberies, saloon brawls, US cavalry actions and the showdown on the main street are made possible. The basic rules are straightforward, but there are many optional chapters that can be used as required. Optional rules include all the glorious detail of the Wild West: Saloon Brawls, Special rules for Indians, The 'Iron Horse' and Frontier towns and for playing solo games In addition to the full set of original rules, this edition includes extra chapters on various scenarios and campaigns The History of Wargaming Project aims to document the development of wargaming.

Diablo III: Book of Cain - Blizzard Entertainment 2017-07-18

An exceptionally illustrated fiction for millions of Blizzard fans, Diablo III: Book of Cain is the source book for Blizzard Entertainment's Diablo franchise and the best-selling Diablo III game, as told by the games' core narrator, Deckard Cain. In Blizzard Entertainment's Diablo® and Diablo II, the recurring character of Deckard Cain delivered quests, accompanied the brave adventurer, and, as the last of the Horadrim, provided a link to the greater history of the world of Sanctuary. Ever mysterious during these appearances, Cain hinted at a larger story, providing snippets of it in his notebook. Diablo III: Book of Cain is Cain's formal record of this greater tale—a dissertation on the lore of the Diablo universe, told by one who has witnessed and participated in some of the epic events that make up the eternal conflict between the High Heavens and the Burning Hells. Designed as an “in-world” artifact from the Diablo universe, Diablo III: Book of Cain includes Cain's revealing meditations, as well as dozens of sketches and color artworks depicting the angelic and demonic beings who wage constant war with one another.

Blood Awakens - Jessaca Willis 2019-06-26

People called Sean a blood guide, though he never fully understood why. As far as he knew, he could hear heartbeats and heal people. It wasn't until he walked in on his brother's brutal murder that he learned of the darker nature of his power: blood speaks to him, and he to it. With a simple song, he can command it to do whatever he wants, and in that moment, he showed his brother's murderers no mercy. Now Sean must fight to keep his inner demons in check and his path to redemption begins with the establishment of sanctuary for people like him, people with powers, the Awakened. Graciela is one of many who did not Awaken, but she's watched as her brother's power as an empath-the ability to sense other's emotions-has brought him to the brink of death. Together, they set across Central America in search of a cure, or at the very least, safety. What they find is a sanctuary called Hope, the same one Sean governs. But they soon discover that even from within the compounds of the sanctuary, no one is safe. Not when there are people in the world with unimaginable power and insatiable bloodlust.
