The Church in Babylon - Erwin W. Lutzer 2018-08-07

How do we live faithfully in a country becoming more and more hostile to our faith in Christ? Like the Israelites in Babylon, we must find a way to maintain our faith in the midst of a pagan culture. But that requires we answer two crucial questions: How did we get here? How do we prepare for the dark and difficult days ahead? In *The Church in Babylon*, Dr. Lutzer answers both of these questions. He will walk you through the many parallels between the church in America and God's people in Babylon, and embolden you to be a gospel witness. You'll be encouraged not to compromise your faith even when under constant pressure from all corners of society. And more than all this you will have a fresh encounter with Jesus Christ, as you consider the biblical role of those in exile.

Hellfire - Jb Trepagnier 2019-08-06

New enemies, new allies. I survived my first year at Fortuna Academy. Lucifer met my mates and it wasn't totally mortifying. I met Azriel's mom

and she's not that bad. We're all back at school and we have a mission-find that prophecy and figure out who tried to poison Keane. Everyone in our group has a least favorite Hellhound they suspect of doing the deed, but really, we have nothing. That is, until Lilith comes through with information from school records. Both Hellhounds that have been harassing me have secrets, but this one ties back to Keane and the Lilim. We finally find the prophecy as we gather more allies. Even with the warlock police and Hellhounds on our side, I'm woefully under prepared for any of this. Suck it up, buttercup. That's my only option. With Lucifer as my father and all the prophecies surrounding my birth, the only thing I can do is figure things out. I'm the Princess of Hell. I can do this, right?

The Future of Immortality -

Anya Bernstein 2019-06-25

A gripping account of the Russian visionaries who are pursuing human immortality As long as we have known death,

we have dreamed of life without end. In *The Future of Immortality*, Anya Bernstein explores the contemporary Russian communities of visionaries and utopians who are pressing at the very limits of the human. *The Future of Immortality* profiles a diverse cast of characters, from the owners of a small cryonics outfit to scientists inaugurating the field of biogerontology, from grassroots neurotech enthusiasts to believers in the Cosmist ideas of the Russian Orthodox thinker Nikolai Fedorov. Bernstein puts their debates and polemics in the context of a long history of immortalist thought in Russia, with global implications that reach to Silicon Valley and beyond. If aging is a curable disease, do we have a moral obligation to end the suffering it causes? Could immortality be the foundation of a truly liberated utopian society extending beyond the confines of the earth—something that Russians, historically, have pondered more than most? If life without end requires

radical genetic modification or separating consciousness from our biological selves, how does that affect what it means to be human? As vividly written as any novel, *The Future of Immortality* is a fascinating account of techno-scientific and religious futurism—and the ways in which it hopes to transform our very being.

INTERVIEW WITH CARISSA ANDREWS Q: What inspires your writing? A: I've always had a passion for ancient history and old mythologies. I originally went to school for archaeology, but

ended up studying ancient art, history, and literature. My life experience has also brought me to some very eclectic interests, which I've used to elaborate in my stories... For example, I'm a Reiki Master, I've studied mixed martial arts, and have a special place in my heart for the metaphysical. I wanted my stories to be a blend of not only the things I found fascinating, but the sort of tales that I knew my readers would be enthralled with. If you can put down one of my books, then I don't feel I've done my job. Q: What other books are tied to The Final Five? Cutlass - Ellis Leigh

2016-09-23

These aliens are looking for love in all the wrong solar systems... Cutlass never thought he'd be stuck on some backward planet in a solar system with only one sun. Earth wasn't his home, but he'd find a way to survive there if it meant finding a mate. He could put up with their ancient mechanical devices and a name that wasn't his own for the right woman. Chloe never

imagined she'd sign up to be some sort of modern-day mail order bride. But too much wine and an internet connection were a bad combination, especially when the life she imagined seemed so much greater than the life she was living. Everyone stretches the truth on those dating websites, right? One ad in a space station, one night of too much drinking, and one hotel room that will never be the same. What would you do if you found out the man from your fantasies was actually the man from your science fiction?
