Design(h)ers - Victionary 2019-03-28

With the amount of progress the world has made in attitudes and achievements to-date, the time cannot be more apt than now for a celebration of women in the creative industry today. DESIGN(H)ERS is a stunning showcase of 30 female talents spanning across a variety of design mediums to highlight the diversity that women bring to their respective fields. With insightful interviews revolving around the thoughts and stories of pioneers who have already made their mark, this book serves to inspire and encourage the creatives of the future.

How Design Makes Us Think - Sean Adams 2021-03-30

From posters to cars, design is everywhere. While we often discuss the aesthetics of design, we don't always dig deeper to unearth the ways design can overtly, and covertly, convince us of a certain way of thinking. *How Design Makes Us Think* collects hundreds of examples across graphic design, product design, industrial design, and architecture to illustrate how design can inspire, provoke, amuse, anger, or reassure us. Graphic designer Sean Adams walks us through the power of design to attract attention and convey meaning. The book delves into the sociological, psychological, and historical reasons for our responses to design, offering practitioners and clients alike a new appreciation of their responsibility to create design with the best intentions. *How Design Makes Us Think* is an essential read for designers, advertisers, marketing professionals, and anyone who wants to understand how the design around us makes us think, feel, and do things.

GRAPHIC DESIGN FOR EVERYONE - CATH. CALDWELL 2019

The Designer's Dictionary of Color - Sean Adams 2017-04-11

A guide to the cultural, historical, and social meanings of twenty-seven colors, plus examples of successful usage of each as well as options for palette variations. *The Designer's Dictionary of Color* provides an in-depth look at twenty-seven colors key to art and graphic design. Organized by spectrum, in color-by-color sections for easy navigation, this book documents each hue with charts showing color range and palette variations. Chapters detail each color's creative history and cultural associations, with examples of color use that extend from the artistic to the utilitarian—whether the turquoise on a Reid Miles album cover or the avocado paint job on a 1970s Dodge station wagon. A practical and inspirational resource for designers and students alike, *The Designer's Dictionary of Color* opens up the world of color for all those who seek to harness its incredible power.

The Elements of Graphic Design - Alex W. White 2011-03-15

This very popular design book has been wholly revised and expanded to feature a new dimension of inspiring and counterintuitive ideas to thinking about graphic design relationships. *The Elements of Graphic Design, Second Edition* is now in full color in a larger, 8 x 10-inch trim size, and contains 40 percent more content and over 750 images to enhance and better clarify the concepts in this thought-provoking resource. The second edition also includes a new section on Web design; new discussions of modularity, framing, motion and time, rules of randomness, and numerous quotes supported by images and biographies. This pioneering work provides designers, art directors, and students—regardless of experience—with a unique approach to successful design. Veteran designer and educator Alex. W. White has assembled a wealth of information and examples in his exploration of what makes visual design stunning and easy to read. Readers will discover White's four elements of graphic design, including how to: define and reveal dominant images, words, and concepts; use scale, color, and position to guide the viewer through levels of importance; employ white space as a significant component of design and not merely as background; and use display and text type for maximum comprehension and value to the reader. Offering a new way to think about and use the four design elements, this book is

certain to inspire better design. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

A Book on Books - Victionary 2020-04-30

From scrolls and sheets of papyrus to elaborate and expensive codices to the mass press-printed volumes as we know them today, books have come a long way since writing was first developed. Although digital technology has impacted how we consume information over the last few decades, book design has survived as a means of showcasing creativity and craftsmanship, as books remain important sources of inspiration, knowledge, and entertainment. *A Book on Books* showcases some of the best book design work from all over the world in celebrating the designers' contributions to preserving reading culture, as they continue to make books eye-catching and exciting to read or own. It also captures the voices of key influencers from publishing, printmaking, book fair organizing, and bookshop-owning standpoints, as they continue to play a crucial role in keeping the book-making industry alive and thriving even in the unknown future.

CAPS LOCK: How Capitalism Took Hold of Graphic Design, and How to Escape from It - Ruben Pater 2021-09-21

Capitalism could not exist without the coins, banknotes, documents, information graphics, interfaces, branding, and advertisements made by graphic designers. Even anti-consumerist strategies such as social design and speculative design are appropriated to serve economic growth. It seems design is locked in a cycle of exploitation and extraction, furthering inequality and environmental collapse. *CAPS LOCK* uses clear language and visual examples to show how graphic design and capitalism are inextricably linked. The book features designed objects and also examines how the study, work, and professional practice of designers support the market economy. Six radical design cooperatives are featured that resist capitalist thinking in their own way, hoping to inspire a more socially aware graphic design.

Less is More - Viction:workshop 2017

Artists have long explored the nuances of limited color palettes in their work, from El Lissitzky's highly symbolic abstractions to Shepard Fairey's iconic Hope poster. Recognizing the power of simplicity in conveying a succinct message without too much noise or artifice instantly changes the way we interact with these compositions, and allows for the subtle use of texture, form and layer to create interest and convey information in unique and innovative ways. Not limited to social or political commentary, designers too have been utilizing these techniques for a wide variety of applications, from book design and packaging, to brand identity and promotion. *Less is More* examines the very best of recent graphic design in one, two and three colors.

How to Revised and Expanded Edition - Michael Bierut 2021-09-07

A revised and expanded edition of the world-renowned graphic designer's classic and bestselling monograph, using examples from a portfolio spanning his full career to date. Protégé of design legend Massimo Vignelli and partner in the New York office of the international design firm Pentagram, Michael Bierut has had one of the most varied careers of any living graphic designer. The projects in *How to* illustrate the breadth of activity that graphic design encompasses today and demonstrate Bierut's enthusiastically eclectic approach that has been a

hallmark of his career. This revised and expanded edition of his bestselling monograph examines more than three dozen projects from start to finish—including new projects for major clients such as Mastercard, The Poetry Foundation, the International Center for Photography, and Bierut’s brand design for Hillary Clinton’s 2016 presidential campaign—providing insights into the creative process, his working life, his relationship with clients, and the challenges that all creatives face in bringing innovative work into the world today. It also features a new afterword on the role of the designer in the post-Covid era.

The Turn of the Century: A Survey of Practices Fueled by Creative Coding - Demian Conrad 2022-02

Designers discuss the possibilities of creative coding today Through a series of over 20 interviews with designers, this survey looks at the challenges and opportunities of the fast-changing world of creative coding and the ethos of devising one's own design tools.

Reading Graphic Design in Cultural Context - Grace Lees-Maffei 2019-02-07

Reading Graphic Design in Cultural Context explains key ways of understanding and interpreting the graphic designs we see all around us, in advertising, branding, packaging and fashion. It situates these designs in their cultural and social contexts. Drawing examples from a range of design genres, leading design historians Grace Lees-Maffei and Nicolas P. Maffei explain theories of semiotics, postmodernism and globalisation, and consider issues and debates within visual communication theory such as legibility, the relationship of word and image, gender and identity, and the impact of digital forms on design. Their discussion takes in well-known brands like Alessi, Nike, Unilever and Tate, and everyday designed things including slogan t-shirts, car advertising, ebooks, corporate logos, posters and music packaging.

No More Rules - Rick Poynor 2003

With the international take-up of new technology in the 1990s, designers and typographers reassessed their roles and jettisoned existing rules in an explosion of creativity in graphic design. This book tells that story in detail, defining and illustrating key developments and themes from 1980-2000.

How to Think Like a Great Graphic Designer - Debbie Millman 2010-06-29

Take a peek inside the heads of some of the world’s greatest living graphic designers. How do they think, how do they connect to others, what special skills do they have? In honest and revealing interviews, nineteen designers, including Stefan Sagmeister, Michael Beirut, David Carson, and Milton Glaser, share their approaches, processes, opinions, and thoughts about their work with noted brand designer Debbie Millman. The internet radio talk host of Design Matters, Millman persuades the greatest graphic designers of our time to speak frankly and openly about their work. *How to Think Like a Great Graphic Designer* offers a rare opportunity to observe and understand the giants of the industry. Designers interviewed include: —Milton Glaser —Stefan Sagmeister —David Carson —Paula Scher —Abbott Miler —Lucille Tenazas —Paul Sahre —Emily Oberman and Bonnie Siegler —Chip Kidd —James Victore —Carin Goldberg —Michael Bierut —Seymour Chwast —Jessica Helfand and William Drenttel —Steff Geissbuhler —John Maeda Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Thou Shall Not Use Comic Sans - Tony Seddon 2011-12-29

Ask any graphic designer the world over about their preferred approach to setting type, choosing a color, or beginning a new layout, and you will rarely get exactly the same answer twice. All designers have their own way of working and their own combinations of the thousands of techniques one can apply when planning a new design project. But there are some dos and don'ts that always figure in any heated debate about what one should or should not accept as the right way to create the best graphic design. This book looks at key dos and don'ts, bringing them together in the form of a classically structured almanac. Packed with practical advice, but presented in a light-hearted fashion, the advisory

rather than dictative approach means designers can take or leave the advice presented in each rule as is typical of most creatives with their own strong views on what does and does not constitute good design practice. Individual entries will either bring forth knowing nods of agreement or hoots of derision, depending on whether or not the reader loves or hates hyphenation, has a pathological fear of beige, or thinks that baseline grids are boring. *Thou Shall Not Use Comic Sans* is the must-have collection of the best advice that any graphic designer should have at his fingertips, with each entry combining a specific rule with a commentary from a variety of experienced designers from all fields of the graphic design industry. Grouped into six, color-coded categories—typography, color, layout, imagery, production, and the practice of design—but presented numerically and in mixed groups, the reader can either dip in at random or use the book as the source of a daily lesson in how to produce great graphic design. This product is available to U.S. and Canada customers only.

The Fundamentals of Creative Design - Gavin Ambrose 2011-08-31

Introduces students to the various aspects of the graphic design. This title provides a fresh introduction to the key elements of the discipline and looks at the following topics: design thinking, format, layout, grids, typography, colour, image and print and finish.

Powered by Design - Renée Stevens 2020-03-20

The design industry has evolved rapidly over the past decade. Effective and successful designers no longer need to just “make things,” they need to be curious thinkers who understand how to solve problems that have a true impact on the world we live in and how to show the power of designing for social good. Now more than ever, the graphic design industry needs a book that teaches the foundations and theories of design while simultaneously speaking to the topics of history, ethics, and accessibility in order to make designs that are the most effective for all people.

In *Powered by Design*, educator, designer, and public speaker Renee Stevens brings a truly up to date and thoughtful approach to an introduction to graphic design. As Assistant Professor at the S.I. Newhouse School of Communication at Syracuse University, Stevens created this book to be at home equally in academia and outside of the school setting. With a conversational and approachable tone, Stevens’ book is for anyone who wants to gain a more practical understanding of what graphic design is today, and the power and potential it has: from students to novice graphic designers to anyone who wants to build a solid foundation of design skills so that they can work more effectively with professional designers. Stevens covers topics such as:

- Choosing the right typeface
- Hierarchy and visual weight
- Creating design systems
- Balancing tension
- Visualizing data
- Understanding color and mood
- Defining a story structure
- User testing and critique
- Immersive design (designing for all the senses)
- Determining when a design is finished
- How to make a living with design

Woven throughout is the crucial idea that you must embrace empathy in everything you design in order to create work that is the most inclusive. Design has the power and potential to make real impact in our everyday lives, and this book will show you how to do that starting with your first design experience.

The Graphic Design Idea Book - Gail Anderson 2016-04-13

This book serves as an introduction to the key elements of good design. Broken into sections covering the fundamental elements of design, key works by acclaimed designers serve to illustrate technical points and encourage readers to try out new ideas. Themes covered include

narrative, colour, illusion, ornament, simplicity, and wit and humour. The result is an instantly accessible and easy to understand guide to graphic design using professional techniques.

100 Years of Swiss Graphic Design - Christian Brändle 2014-10-15

100 Years of Swiss Graphic Design takes a fresh look at Swiss typography and photo-graphics, posters, corporate image design, book design, journalism and typefaces over the past hundred years. With illuminating essays by prominent experts in the field and captivating illustrations, this book, designed by the Zurich studio NORM, presents the diversity of contemporary visual design while also tracing the fine lines of tradition that connect the work of different periods. The changes in generations and paradigms as manifested in their different visual languages and convictions are organized along a timeline as well as by theme. The various fields of endeavor and media are described, along with how they relate to advertising, art, and politics. Graphic design from Switzerland reflects both international trends and local concerns. High conceptual and formal quality, irony and wit are its constant companions. A new, comprehensive reference work on Swiss design.

Graphic Design Rules - Sean Adams 2020-04-07

DON'T use comic sans (except ironically!) but DO worship the classic typefaces like Helvetica and Garamond. Graphic Design Rules is a handy guide for professional graphic designers, students, and laymen who incorporate graphic design into their job or small business. Packed with practical advice, this spirited collection of design dos and don'ts takes readers through 365 rules like knowing when to use a modular grid-and when to throw the grid out the window. All designers will appreciate tips and lessons from these highly accomplished authors, who draw on years of experience to help you create good design.

Graphic Design for Non-Designers - Tony Seddon 2017-08-23

Whether its a birthday card for a relative or a poster for a neighbourhood event, at some point in our lives, almost all of us will produce a piece of graphic design. We all make design choices everyday, in the fonts we choose for our emails, the filters and crops we use for our photos, and the colours we choose to dress ourselves in. If you have never studied graphic design formally but want something that looks smart and well made, this is the book for you. Arming you with all the basic knowledge you need to get professional-looking results, using simple jargon-free tutorials, this is the one-stop must-have guide for anyone who wants to learn about graphic design, but doesn't know where to start.

Extra Bold - Ellen Lupton 2021-06-25

Extra Bold is the inclusive, practical, and informative (design) career guide for everyone! Part textbook and part comic book, zine, manifesto, survival guide, and self-help manual, Extra Bold is filled with stories and ideas that don't show up in other career books or design overviews. • Both pragmatic and inquisitive, the book explores power structures in the workplace and how to navigate them. • Interviews showcase people at different stages of their careers. • Biographical sketches explore individuals marginalized by sexism, racism, and ableism. • Practical guides cover everything from starting out, to wage gaps, coming out at work, cover letters, mentoring, and more. A new take on the design canon. • Opens with critical essays that rethink design principles and practices through theories of feminism, anti-racism, inclusion, and nonbinary thinking. • Features interviews, essays, typefaces, and projects from dozens of contributors with a variety of racial and ethnic backgrounds, abilities, gender identities, and positions of economic and social privilege. • Adds new voices to the dominant design canon. Written collaboratively by a diverse team of authors, with original, handcrafted illustrations by Jennifer Tobias that bring warmth, happiness, humor, and narrative depth to the book. Extra Bold is written by Ellen Lupton (Thinking with Type), Farah Kafei, Jennifer Tobias, Josh A. Halstead, Kaleena Sales, Leslie Xia, and Valentina Vergara.

Graphic Design School - David Dabner 2020-03-05

Graphic Design School is organized into two main sections, 'principles' and 'practice'. The first section deals with the fundamentals of design, such as composition, hierarchy, layout, typography, grid structure, colour and so on. The second section puts these basics into practice, and gives information about studio techniques and production issues relevant to a number of different graphic design disciplines. The last part of the second section provides an overview of some of the different career choices open to students entering the graphic design field. This seventh edition of Graphic Design School features all-new assignments and fully updated reading lists. Over a third of the images are entirely new, and include a mix of professional work and outstanding student pieces. In addition, Part II: Practice Plus features new software and revisits old print technologies - for example, risograph printing and screen printing -

which are becoming increasingly popular forms of production again.

Visual Research: An Introduction to Research Methodologies in Graphic Design - Ian Noble 2004-12

Visual Research explains the key terms and theories that underlie design research, examining the importance of audience, communication theory, semiotics and semantics. It features a range of case studies which demonstrate how the use of rigorous research methods can form the basis of effective visual communication and design problem solving, eschewing end product analysis for a discussion of the way research feeds into the design process.

Graphic Design School - David Dabner 2013-10-24

Graphic Design School allows students to develop core competencies while understanding how these fundamentals translate into new and evolving media. With examples from magazines, websites, books, and mobile devices, the Fifth Edition provides an overview of the visual communications profession, with a new focus on the intersection of design specialties. A brand-new section on web and interactivity covers topics such as web tools, coding requirements, information architecture, web design and layout, mobile device composition, app design, CMS, designing for social media, and SEO.

Graphic Design for Beginners - Anita Nipane 2020-07-28

Do you need to design things, but have no background in graphic design theory? Would you like to learn the main graphic design principles and create visuals that effectively communicate your message? If you lack a degree in art but need to make social media posts and ads, business cards, flyers, brochures, or any other visuals, buy this book and read it. It won't substitute studying in a design school but will give you a vocabulary of the basic design and composition principles, color theory, and typography. This book will serve as your starting point if you want to create eye-catching visuals and never again make amateur mistakes. Read the book "Graphic Design for Beginners" and you will learn how to: use the main principles of professionally-looking designs create a composition and use visual weight, balance, and flow to emphasize your message recognize the difference between the optical and geographic center and why the first one is important use the science behind the good looking color schemes combine typefaces and use contrast in a sophisticated way use more than 20 FREE resources and tools for creating your designs In short, after reading this book you will know how to apply the same graphic design principles every professional designer knows and uses. Recommended especially for non-designers this book will change the way you look at graphic designs around you. Get it now!

Josef Müller-Brockmann - Josef Müller-Brockmann 2015-07

A new edition showing the work of one of the most famous Swiss designers: a comprehensive overview of his oeuvre. This illustrated essay traces the history of one of the leading exponents of "Swiss Graphic Design" in the 1950s and 1960s. Josef Müller-Brockmann's posters have become world famous for their ability to convey information with great visual tension, a sense of drama, and an extreme economy of means. He created a body of work in which timeless principles of visual communication are inscribed. In addition to the posters, the image part presents examples of logotypes, appearances, and exhibitions as well as numerous lesser-known works in chronological order. 396 illustrations

Layout Essentials - Beth Tondreau 2011-06

This book outlines and demonstrates basic layout/grid guidelines and rules.

Bibliographic - Jason Godfrey 2011-03-30

Bibliographic: 100 Classic Graphic Design Books is a compilation of the best design books of the last 100 years. It covers a huge range of materialhistoric titles from pioneering type foundries to the best of recent monographs from today's leading studiosand provides a unique insight into the evolution of graphic design in the twentieth century.

Introduction to Graphic Design - Aaris Sherin 2017-11-02

For a great foundation as a graphic design student, look no further than Aaris Sherin's Introduction to Graphic Design. Sherin will introduce you to the formal structure of graphic design, so you can understand and utilise the main techniques of your chosen profession, and learn how they apply to print and screen-based projects. Whether you need to conceptualise a new poster, develop an exciting advertisement, structure an app or create eye-catching signage, chapters can be read in any order you choose, depending on which area you wish to concentrate. Whatever your approach, you'll be encouraged to use critical thinking, visual exploration and understand the special relationship graphic designers have to creative problem solving. There are also chapters devoted to imagery, color, and typography, using a thematic approach to creative problem-solving. With over 500 images showing examples from

international designers, helpful diagrams, highlighted key terms and concepts, Design in Action case studies, exercises and chapter-by-chapter Dos and Don'ts, Introduction to Graphic Design will give newcomers to graphic design the confidence to give visual form to concepts and ideas.

Graphic Design Play Book - Sophie Cure 2019-06-25

An entertaining and highly original introduction to graphic design, this beautifully designed book uses puzzles and visual challenges to demonstrate how typography, signage, posters, and branding work. Through a series of games and activities, including spot the difference, matching games, drawing, and dot-to-dot, readers are introduced to concepts and techniques in an engaging and interactive way. Further explanation and information is provided by solution pages and a glossary, and a loose-leaf section contains stickers, die-cut templates, and colored paper to help readers complete the activities. Illustrated with typefaces, posters, and pictograms by distinguished designers including Otl Aicher, Pierre Di Sciullo, Otto Neurath and Gerd Arntz, the book will be enjoyed both by graphic designers, and anyone interested in finding out more about visual communication.

Graphic Design Theory - Helen Armstrong 2012-08-10

Graphic Design Theory is organized in three sections: "Creating the Field" traces the evolution of graphic design over the course of the early 1900s, including influential avant-garde ideas of futurism, constructivism, and the Bauhaus; "Building on Success" covers the mid-to late twentieth century and considers the International Style, modernism, and postmodernism; and "Mapping the Future" opens at the end of the last century and includes current discussions on legibility, social responsibility, and new media. Striking color images illustrate each of the movements discussed and demonstrate the ongoing relationship between theory and practice. A brief commentary prefaces each text, providing a cultural and historical framework through which the work can be evaluated. Authors include such influential designers as Herbert Bayer, L'szlo Moholy-Nagy, Karl Gerstner, Katherine McCoy, Michael Rock, Lev Manovich, Ellen Lupton, and Lorraine Wild. Additional features include a timeline, glossary, and bibliography for further reading. A must-have survey for graduate and undergraduate courses in design history, theory, and contemporary issues, Graphic Design Theory invites designers and interested readers of all levels to plunge into the world of design discourse.

Creating a Brand Identity: A Guide for Designers - Catharine Slade-Brooking 2016-01-18

Creating a brand identity is a fascinating and complex challenge for the graphic designer. It requires practical design skills and creative drive as well as an understanding of marketing and consumer behaviour. This practical handbook is a comprehensive introduction to this multifaceted process. Exercises and examples highlight the key activities undertaken by designers to create a successful brand identity, including defining the audience, analyzing competitors, creating mood boards, naming brands, designing logos, presenting to clients, rebranding and launching the new identity. Case studies throughout the book are illustrated with brand identities from around the world, including a diverse range of industries - digital media, fashion, advertising, product design, packaging, retail and more.

Graphic Design Rules - Tony Seddon 2020-04-07

DON'T use comic sans (except ironically!) but DO worship the classic typefaces like Helvetica and Garamond. Graphic Design Rules is a handy guide for professional graphic designers, students, and laymen who incorporate graphic design into their job or small business. Packed with practical advice, this spirited collection of design dos and don'ts takes readers through 365 rules like knowing when to use a modular grid—and when to throw the grid out the window. All designers will appreciate tips and lessons from these highly accomplished authors, who draw on years of experience to help you create good design.

Graphic Design Process - Nancy Skolos 2012-08-31

The process of creating graphic design cannot be easily defined: each designer has their own way of seeing the world and approaching their work. Graphic Design Process features a series of in-depth case studies exploring a range of both universal and unique design methods. Chapters investigate typical creative strategies - Research, Inspiration, Drawing, Narrative, Abstraction, Development and Collaboration - examining the work of 23 graphic designers from around the world. Work featured includes projects by Philippe Apeloig, Michael Bierut, Ed Fella, James Goggin, Anette Lenz, Johnson Banks, Me Company, Graphic Thought

Facility, Ahn Sang-Soo and Ralph Schraivogel. This book is aimed at students and educators, as well as practising designers interested in the working methodologies of their peers.

Graphic Design Rules - Peter Dawson 2017-09-05

365 daily design mantras from four leading industry experts, providing you with valuable design dos and don'ts for every day of year. Packed with practical advice presented in a fun, lighthearted fashion, this is the perfect book for the ever-growing group of non-designers who want some graphic design guidance. And for more experienced designers, individual entries will either bring forth knowing nods of agreement or hoots of derision, depending on whether or not the reader loves or hates hyphenation, has a pathological fear of beige, or thinks that baseline grids are boring. In the style of a classical almanac, 365 entries combine a specific rule with a commentary from a variety of experienced designers from all fields of the graphic design industry. Covering topics such as typography, colour, layout, imagery, production, and creative thinking, you can either dip in at random or use the book as the source of a daily lesson in how to produce great graphic design.

The Graphic Design Reference & Specification Book - Poppy Evans 2013-09

The Graphic Design Reference & Specification Book should always be next to a designer's computer. Completely practical with only the most needed information, this valuable book provides designers with all the little details that can make or break a design, such as how much space to leave in the gutter when designing barrel folds, how to layout a template for a box, and the ratios of each part, as well as metric conversion charts, standard envelope sizes in the USA, Europe, Canada and Asia, and much more. This hardworking handbook is compact and accessible and is a must-have for any graphic designer.

Graphic Design Handbook - Radu Frasier

The Graphic Design Handbook will ease your work by providing you lots of structured information and practical advices on the following topics: ● Color Theory ● Color Psychology ● Shape Psychology ● Typography ● Branding ● Logo Design ● Charts with brochure folding options ● and lots of tables with standard dimensions for flyers, brochures, papers, banners etc. The Graphic Design Handbook will: ● save your time by bringing all the important information at your fingertips ● ease your work with lots of practical advices ● increase your productivity ● help you better understand what's in your client's mind and what are their real expectations

Oh Sh*t... What Now? - Craig Oldham 2018-03-20

So you've graduated. What now? Where do you live? Can you afford to live? How can you make money doing design? How do you get a job? Who do you want to work for and are you good enough? What goes in your portfolio? This book offers a comprehensive and insightful guide to anything and everything that is of practical and emotional use to those looking to break into the creative industry. It will share experiences, ideas, interviews, contacts, hints, advice, criticism, and encouragement. With sections covering education, portfolios, the gap year, placements, jobs/freelancing, working process, and personal development, this straight-talking, sometimes funny and frequently irreverent guide is a must-read for all creative arts students.

The AIGA Guide to Careers in Graphic and Communication Design - Juliette Cezzar 2018-03-08

What graphic design is, what designers need to know, and who becomes a designer have all evolved as the computer went from being a tool to also becoming our primary medium for communication. How jobs are advertised and how prospective candidates communicate with prospective employers have changed as well, as has the culture and context for many workplaces, requiring new approaches for how to find your first (and last) position. Through clear prose, a broad survey of contexts where designers find themselves in the present day, and interviews with designers, The AIGA Guide to Careers in Graphic and Communication Design is an invaluable resource for finding your place in this quickly changing and growing field. The book includes interviews with over 40 designers at all levels working in-house and out-of-house in studios, consultancies, or alone, including: Nicholas Blechman, The New Yorker; Rob Giampietro, Google; Njoki Gitahi, IDEO; Hilary Greenbaum, Whitney Museum; Holly Gressley, Vox Media; Cemre Güngör, Facebook; Natasha Jen, Pentagram; Renda Morton, The New York Times; and Alisa Wolfson, Leo Burnett Worldwide.

Design for Screen - Wang Shaoqiang 2017-02-13

The book addresses subjects important for user experience as colour schemes, frames & tables, icon application, and text & typography.
