The Wheel of Life and Death - Philip Kapleau 1989

Combining the writings of Eastern and Western religious literature on death, Kapleau provides insights into meditation, living wills, funerals, and consoling the bereaved

A Better Death - Ranjana Srivastava 2019-06-01

A powerful, timely exploration of the art of living and dying on our own terms by one of Australia's most respected voices Of all the experiences we share, two universal events bookend our lives: we were all born and we will all die. We don't have a choice in how we enter the world but we can have a say in how we leave it. In order to die well, we must be prepared to contemplate our mortality and to broach it with our loved ones, who are often called upon to make important decisions on our behalf. These are some of the most important conversations we can have with each other - to find peace, kindness and gratitude for what has gone before, and acceptance of what is to come. Dr Ranjana Srivastava draws on two decades of experience to share her observations and advice on leading a meaningful life and finding dignity and composure at the end. With an emphasis on advocacy, leaving a legacy and staying true to our deepest convictions, Srivastava tells stories of strength, hope and resilience in the face of grief and offers an optimistic meditation on approaching the end of life. Intelligent, warm and deeply affecting, A Better Death is a passionate exploration of the art of living and dying well. Dr Ranjana Srivastava OAM is a practising oncologist, award-winning writer, broadcaster and Fulbright scholar. See www.ranjanasrivastava.com

Advice On Dying - Dalai Lama 2012-03-31

In this ground-breaking book, the Dalai Lama advises us to gain familiarity with the process and practices of death so that, when we are physically weak, our minds can still be focussed in the right direction, and in the right manner. Advice on Dying cautions us not to fall under the influence of the mistaken belief of permanence. We should not think that we have a lot of time in this life, because there is a great danger of wasting our lives in procrastination. He suggests we meditate on our lives, and on the indefiniteness of the time of death. For, though the time of our death is uncertain, death itself is certain... In this empowering and positive book, His Holiness brings new inspiration to a subject that we, in the West, have long ignored to our detriment. It is only by taming our minds and fully facing the end of our lives, that we can fully live in the present moment.

Die with Zero - Bill Perkins 2020

"A ... new philosophy and ... guide to getting the most out of your money--and out of life--for those who value memorable experiences as much as their earnings"--

Advice on Dying - Dalai Lama XIV Bstan-'dzin-rgya-mtsho 2002-11-19

This revelatory volume shows readers how to confront death--along with inevitable currents of life--with a deep-seated preparedness built on virtue, focus, and inner strength.

What Matters Most - James Hollis 2009

Outlines an approach to achieving happiness that counsels on ways to overcome fear-based hurdles, explains how to evaluate one's internal beliefs, and reveals the importance of pursuing growth rather than security.

The Comfort Crisis - Michael Easter 2021-05-11

"If you've been looking for something different to level up your health, fitness, and personal growth, this is it."—Melissa Urban, Whole30 CEO and New York Times bestselling author Discover the evolutionary mind

and body benefits of living at the edges of your comfort zone and reconnecting with the wild. In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the wild within yourself.

30 Lessons for Living - Karl Pillemer, Ph.D. 2012-10-30

"Heartfelt and ever-endearing—equal parts information and inspiration. This is a book to keep by your bedside and return to often."—Amy Dickinson, nationally syndicated advice columnist "Ask Amy" More than one thousand extraordinary Americans share their stories and the wisdom they have gained on living, loving, and finding happiness. After a chance encounter with an extraordinary ninety-year-old woman, renowned gerontologist Karl Pillemer began to wonder what older people know about life that the rest of us don't. His quest led him to interview more than one thousand Americans over the age of sixty-five to seek their counsel on all the big issues- children, marriage, money, career, aging. Their moving stories and uncompromisingly honest answers often surprised him. And he found that he consistently heard advice that pointed to these thirty lessons for living. Here he weaves their personal recollections of difficulties overcome and lives well lived into a timeless book filled with the hard-won advice these older Americans wish someone had given them when they were young. Like This I Believe, StoryCorps's Listening Is an Act of Love, and Tuesdays with Morrie, 30 Lessons for Living is a book to keep and to give. Offering clear advice toward a more fulfilling life, it is as useful as it is inspiring.

Dying to Be Me - Anita Moorjani 2022-03-08

THE NEW YORK TIMES BESTSELLER! "I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place" In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all

medical knowledge. In "Dying to Be Me," Anita Freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being!

[Mind of Clear Light](#) - His Holiness the Dalai Lama 2004-09-14

"Everyone dies, but no one is dead," goes the Tibetan saying. It is with these words that Advice on Dying takes flight. Using a seventeenth-century poem written by a prominent scholar-practitioner, His Holiness the Dalai Lama draws from a wide range of traditions and beliefs to explore the stages we all go through when we die, which are the very same stages we experience in life when we go to sleep, faint, or reach orgasm (Shakespeare's "little death"). The stages are described so vividly that we can imagine the process of traveling deeper into the mind, on the ultimate journey of transformation. In this way, His Holiness shows us how to prepare for that time and, in doing so, how to enrich our time on earth, die without fear or upset, and influence the stage between this life and the next so that we may gain the best possible incarnation. As always, the ultimate goal is to advance along the path to enlightenment. Advice on Dying is an essential tool for attaining that eternal bliss.

[Preparing to Die](#) - Andrew Holecek 2013-07-09

We all face death, but how many of us are actually ready for it? Whether our own death or that of a loved one comes first, how prepared are we, spiritually or practically? In Preparing to Die, Andrew Holecek presents a wide array of resources to help the reader address this unfinished business. Part One shows how to prepare one's mind and how to help others, before, during, and after death. The author explains how spiritual preparation for death can completely transform our relationship to the end of life, dissolving our fear and helping us to feel open and receptive to letting go in the dying process. Daily meditation practices, the stages of dying and how to work with them, and after-death experiences are all detailed in ways that will be particularly helpful for those with an interest in Tibetan Buddhism and in Tibetan approaches to conscious dying. Part Two addresses the practical issues that surround death. Experts in grief, hospice, the funeral business, and the medical and legal issues of death contribute chapters to prepare the reader for every practical concern, including advance directives, green funerals, the signs of death, warnings about the funeral industry, the stages of grief, and practical care for the dying. Part Three contains heart-advice from twenty of the best-known Tibetan Buddhist masters now teaching in the West. These brief interviews provide words of solace and wisdom to guide the dying and their caregivers during this challenging time. Preparing to Die is for anyone interested in learning how to prepare for death from a Buddhist perspective, both spiritually and practically. It is also for those who want to learn how to help someone else who is dying, both during the time of illness and death as well as after death.

The Art of Living and Dying - Osho 2017-06-06

"Death cannot be denied by repeating that death does not exist. Death will have to be known, it will have to be encountered, it will have to be lived. You will have to become acquainted with it." —Osho Why are we afraid of death? How do I relax in the certainty of death? Is the theory of reincarnation true? How can I celebrate death as you suggest? With depth, clarity, compassion, and even humor, Osho answers these questions and many others, shedding new light on this most sacred of mysteries and providing practical guidance for meditation and support. In The Art of Living and Dying, Osho not only reveals that our fear of death is based on a misunderstanding of its nature, but that dying is a tremendous opportunity for inner growth. Death is not an event but a process—and one that begins with birth. Each exhalation is a small death; each inhalation, a rebirth. When life is lived consciously and totally, death is not a catastrophe but a joyous climax.

A Beginner's Guide to the End - B. J. Miller 2019-07-16

"I wish I'd had this book when I needed it. Death and dying are not subjects that many people are comfortable talking about, but it's hugely important to be as prepared as you can be - emotionally, physically, practically, financially, and spiritually. This book may be the most important guide you could have." - Elizabeth Gilbert, author of Eat Pray Love _____ The end of a life can often feel like a traumatic, chaotic and inhuman experience. In this reassuring and inspiring book, palliative care physician Dr BJ Miller and writer Shoshana Berger provide a vision for rethinking and navigating this universal process. There are plenty of self-help books for mourners, but nothing in the way of a modern, approachable and above all useful field guide for the living. And all of us - young, old, sick and well - could

use the help. After all, pregnant couples have ample resources available to them as they prepare to bring a new life into the world: Lamaze courses, elaborate birth plans, tons of manuals. Why don't we have a What to Expect When You're Expecting to Die book? An accessible, beautifully designed and illustrated companion, A Beginner's Guide to the End offers a clear-eyed and compassionate survey of the most pressing issues that come up when one is dying, and will bring optimism and practical guidance to empower readers with the knowledge, resources and tools they'll need to die better, maybe even with triumph.

Final Gifts - Maggie Callanan 2012-02-14

In this moving and compassionate classic—now updated with new material from the authors—hospice nurses Maggie Callanan and Patricia Kelley share their intimate experiences with patients at the end of life, drawn from more than twenty years' experience tending the terminally ill. Through their stories we come to appreciate the near-miraculous ways in which the dying communicate their needs, reveal their feelings, and even choreograph their own final moments; we also discover the gifts—of wisdom, faith, and love—that the dying leave for the living to share. Filled with practical advice on responding to the requests of the dying and helping them prepare emotionally and spiritually for death, Final Gifts shows how we can help the dying person live fully to the very end.

On Living and Dying Well - Cicero 2012-07-05

In the first century BC, Marcus Tullius Cicero, orator, statesman, and defender of republican values, created these philosophical treatises on such diverse topics as friendship, religion, death, fate and scientific inquiry. A pragmatist at heart, Cicero's philosophies were frequently personal and ethical, drawn not from abstract reasoning but through careful observation of the world. The resulting works remind us of the importance of social ties, the questions of free will, and the justification of any creative endeavour. This lively, lucid new translation from Thomas Habinek, editor of Classical Antiquity and the Classics and Contemporary Thought book series, makes Cicero's influential ideas accessible to every reader.

Top Five Regrets of the Dying - Bronnie Ware 2019-08-13

Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, The Top Five Regrets of the Dying, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. The Top Five Regrets of the Dying gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

[Mind of Clear Light](#) - His Holiness the Dalai Lama 2010-06-15

"Everyone dies, but no one is dead," goes the Tibetan saying. It is with these words that Advice on Dying takes flight. Using a seventeenth-century poem written by a prominent scholar-practitioner, His Holiness the Dalai Lama draws from a wide range of traditions and beliefs to explore the stages we all go through when we die, which are the very same stages we experience in life when we go to sleep, faint, or reach orgasm (Shakespeare's "little death"). The stages are described so vividly that we can imagine the process of traveling deeper into the mind, on the ultimate journey of transformation. In this way, His Holiness shows us how to prepare for that time and, in doing so, how to enrich our time on earth, die without fear or upset, and influence the stage between this life and the next so that we may gain the best possible incarnation. As always, the ultimate goal is to advance along the path to enlightenment. Advice on Dying is an essential tool for attaining that eternal bliss.

Living and Dying in Brick City - Sampson Davis 2013-02-12

A riveting personal exploration of the healthcare crisis facing inner-city communities, written by an emergency room physician who grew up in the very neighborhood he is now serving. Sampson Davis is best known as one of three friends from inner-city Newark who made a pact in high school to become doctors. Their book *The Pact* and their work through the Three Doctors Foundation have inspired countless young men and women to strive for goals they otherwise would not have dreamed they could attain. In this book, Dr. Davis looks at the healthcare crisis in the inner city from a rare perspective: as a doctor who works on the front line of emergency medical care in the community where he grew up, and as a member of that community who has faced the same challenges as the people he treats every day. He also offers invaluable practical advice for those living in such communities, where conditions like asthma, heart disease, stroke, obesity, and AIDS are disproportionately endemic. Dr. Davis's sister, a drug addict, died of AIDS; his brother is now paralyzed and confined to a wheelchair as a result of a bar fight; and he himself did time in juvenile detention—a wake-up call that changed his life. He recounts recognizing a young man who is brought to the E.R. with critical gunshot wounds as someone who was arrested with him when he was a teenager during a robbery gone bad; describes a patient whose case of sickle-cell anemia rouses an ethical dilemma; and explains the difficulty he has convincing his landlord and friend, an older woman, to go to the hospital for much-needed treatment. With empathy and hard-earned wisdom, *Living and Dying in Brick City* presents an urgent picture of medical care in our cities. It is an important resource guide for anyone at risk, anyone close to those at risk, and anyone who cares about the fate of our cities. Praise for *Living and Dying in Brick City* “A pull-no-punches look at health care from a seldom-heard sector . . . *Living and Dying* isn't a sky-is-falling chronicle. It's a real, gutsy view of a city hospital.”—*Essence* “Gripping . . . a prescription to help kids dream bigger than their circumstances, from someone who really knows.”—People “[Dr. Davis] is really a local hero. His story has inspired so many of our young people, and he's got his finger on the pulse of what is a challenge in Newark, and frankly all across America. . . . I think his book is going to make a big impact.”—Cory Booker “Some memoirs are heartfelt, some are informative and some are even important. Few, however, are all three. . . . As rare as it is for a book to be heartfelt, well written and inspirational, it's even rarer for a critic to say that a book should be required reading. This ought to be included in high school curricula—for the kids in the suburbs who have no idea what life is like in the inner cities, and for the kids in the inner cities to know that there is a way out.”—The Star-Ledger “Dramatic and powerful.”—New York Daily News “This book just might save your life. Sampson Davis shares fascinating stories from the E.R. and addresses the inner-city health crisis. His book is an important investment in your most valuable resource: your health.”—Suze Orman, author of *The Money Class*

When Breath Becomes Air - Paul Kalanithi 2016-01-12

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. *When Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to

realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can't go on. I'll go on.’” *When Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

We all know how this ends - Anna Lyons 2021-03-18

'Wonderful, thoughtful, practical' - Cariad Lloyd, Griefcast 'Encouraging and inspiring' - Dr Kathryn Mannix, author of Amazon bestseller *With the End in Mind* End-of-life doula Anna Lyons and funeral director Louise Winter have joined forces to share a collection of the heartbreaking, surprising and uplifting stories of the ordinary and extraordinary lives they encounter every single day. From working with the living, the dying, the dead and the grieving, Anna and Louise reveal the lessons they've learned about life, death, love and loss. Together they've created a profound but practical guide to rethinking the one thing that's guaranteed to happen to us all. We are all going to die, and that's ok. Let's talk about it. This is a book about life and living, as much as it's a book about death and dying. It's a reflection on the beauties, blessings and tragedies of life, the exquisite agony and ecstasy of being alive, and the fragility of everything we hold dear. It's as simple and as complicated as that.

Advice on Dying - Dalai Lama XIV Bstan-'dzin-rgya-mtsho 2004

The Dalai Lama advises us to gain familiarity with the process and practices of death so that when we are physically weak, our minds can still be focused in the right direction, and in the right manner.

The Joy of Living and Dying in Peace - Dalai Lama XIV Bstan-'dzin-rgya-mtsho 1998

Addresses the universal question of how we can achieve meaningful lives and peaceful deaths. The Dalai Lama says we must learn to cultivate compassion and positive thoughts and actions.

How to Die - Seneca 2018-02-27

Timeless wisdom on death and dying from the celebrated Stoic philosopher Seneca "It takes an entire lifetime to learn how to die," wrote the Roman Stoic philosopher Seneca (c. 4 BC–65 AD). He counseled readers to "study death always," and took his own advice, returning to the subject again and again in all his writings, yet he never treated it in a complete work. *How to Die* gathers in one volume, for the first time, Seneca's remarkable meditations on death and dying. Edited and translated by James S. Romm, *How to Die* reveals a provocative thinker and dazzling writer who speaks with a startling frankness about the need to accept death or even, under certain conditions, to seek it out. Seneca believed that life is only a journey toward death and that one must rehearse for death throughout life. Here, he tells us how to practice for death, how to die well, and how to understand the role of a good death in a good life. He stresses the universality of death, its importance as life's final rite of passage, and its ability to liberate us from pain, slavery, or political oppression. Featuring beautifully rendered new translations, *How to Die* also includes an enlightening introduction, notes, the original Latin texts, and an epilogue presenting Tacitus's description of Seneca's grim suicide.

Tuesdays with Morrie - Mitch Albom 2007-06-29

#1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that changed millions of lives—with a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class”: lessons in how to live. *Tuesdays with Morrie* is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

The Tibetan Book Of Living And Dying - Sogyal Rinpoche 2012-02-29

25th Anniversary Edition Over 3 Million Copies Sold 'I couldn't give this book a higher recommendation'

BILLY CONNOLLY Written by the Buddhist meditation master and popular international speaker Sogyal Rinpoche, this highly acclaimed book clarifies the majestic vision of life and death that underlies the Tibetan Buddhist tradition. It includes not only a lucid, inspiring and complete introduction to the practice of meditation, but also advice on how to care for the dying with love and compassion, and how to bring them help of a spiritual kind. But there is much more besides in this classic work, which was written to inspire all who read it to begin the journey to enlightenment and so become 'servants of peace'.

Life after the Diagnosis - Steven Pantilat 2017-02-14

In *Life After the Diagnosis*, Dr. Steven Z. Pantilat, a renowned international expert in palliative care, shares innovative approaches for dealing with serious illness, outlines the steps that patients should take, and demystifies the medical system. He makes sense of what doctors say, what they actually mean, and how to get the best information to help make the best medical decisions. Dr. Pantilat covers everything from the first steps after the diagnosis and finding the right caregiving and support, to planning your future so your loved ones don't have to. He offers advice on how to tackle the most difficult treatment decisions and discussions and shows readers how to choose treatments that help more than they hurt, stay consistent with their values and personal goals, and live as well as possible for as long as possible.

How Not to Die - Michael Greger, M.D., FACLM 2015-12-08

From the physician behind the wildly popular NutritionFacts website, *How Not to Die* reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In *How Not to Die*, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America—heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more—and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug—and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, *How Not to Die* includes Dr. Greger's Daily Dozen—a checklist of the twelve foods we should consume every day. Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.

Tibetan Book of the Dead - W. Y. Evans-Wentz 2020-11-18

Derived from a Buddhist funerary text, this famous volume's timeless wisdom includes instructions for attaining enlightenment, preparing for the process of dying, and moving through the various stages of rebirth.

On Living - Kerry Egan 2017-10-24

"A poetic and philosophical and brave and uplifting meditation on how important it is to make peace and meaning of our lives while we still have them." –Elizabeth Gilbert, bestselling author of *Eat Pray Love*
"Illuminating, unflinching and ultimately inspiring... A book to treasure." –People Magazine
A hospice chaplain passes on wisdom on giving meaning to life, from those taking leave of it. As a hospice chaplain, Kerry Egan didn't offer sermons or prayers, unless they were requested; in fact, she found, the dying rarely want to talk about God, at least not overtly. Instead, she discovered she'd been granted a powerful chance to witness firsthand what she calls the "spiritual work of dying"—the work of finding or making meaning of one's life, the experiences it's contained and the people who have touched it, the betrayals, wounds, unfinished business, and unrealized dreams. Instead of talking, she mainly listened: to stories of hope and

regret, shame and pride, mystery and revelation and secrets held too long. Most of all, though, she listened as her patients talked about love—love for their children and partners and friends; love they didn't know how to offer; love they gave unconditionally; love they, sometimes belatedly, learned to grant themselves. This isn't a book about dying—it's a book about living. And Egan isn't just passively bearing witness to these stories. An emergency procedure during the birth of her first child left her physically whole but emotionally and spiritually adrift. Her work as a hospice chaplain healed her, from a brokenness she came to see we all share. Each of her patients taught her something about what matters in the end—how to find courage in the face of fear or the strength to make amends; how to be profoundly compassionate and fiercely empathetic; how to see the world in grays instead of black and white. In this hopeful, moving, and beautiful book, she passes along all their precious and necessary gifts.

Advice on Dying - Dalai Lama XIV Bstan-'dzin-rgya-mtsho 2004

Advice on dying and living a better life.

Don't go there. It's not safe. You'll die. And other more >> rational advice for overlanding Mexico & Central America - 2012

Your complete guide for overlanding in Mexico and Central America. This book provides detailed and up-to-date information by country. It also includes 11 chapters of information for planning and preparing your trip and 9 chapters on what to expect while driving through Mexico and Central America. Completed by the authors of LifeRemotely.com this is the most comprehensive guide for driving the Pan American yet!

The Lost Art of Dying - L.S. Dugdale 2020-07-07

A Columbia University physician comes across a popular medieval text on dying well written after the horror of the Black Plague and discovers ancient wisdom for rethinking death and gaining insight today on how we can learn the lost art of dying well in this wise, clear-eyed book that is as compelling and soulful as *Being Mortal*, *When Breath Becomes Air*, and *Smoke Gets in Your Eyes*. As a specialist in both medical ethics and the treatment of older patients, Dr. L. S. Dugdale knows a great deal about the end of life. Far too many of us die poorly, she argues. Our culture has overly medicalized death: dying is often institutional and sterile, prolonged by unnecessary resuscitations and other intrusive interventions. We are not going gently into that good night—our reliance on modern medicine can actually prolong suffering and strip us of our dignity. Yet our lives do not have to end this way. Centuries ago, in the wake of the Black Plague, a text was published offering advice to help the living prepare for a good death. Written during the late Middle Ages, *ars moriendi*—*The Art of Dying*—made clear that to die well, one first had to live well and described what practices best help us prepare. When Dugdale discovered this Medieval book, it was a revelation. Inspired by its holistic approach to the final stage we must all one day face, she draws from this forgotten work, combining its wisdom with the knowledge she has gleaned from her long medical career. *The Lost Art of Dying* is a twenty-first century *ars moriendi*, filled with much-needed insight and thoughtful guidance that will change our perceptions. By recovering our sense of finitude, confronting our fears, accepting how our bodies age, developing meaningful rituals, and involving our communities in end-of-life care, we can discover what it means to both live and die well. And like the original *ars moriendi*, *The Lost Art of Dying* includes nine black-and-white drawings from artist Michael W. Dugger. Dr. Dugdale offers a hopeful perspective on death and dying as she shows us how to adapt the wisdom from the past to our lives today. *The Lost Art of Dying* is a vital, affecting book that reconsiders death, death culture, and how we can transform how we live each day, including our last.

Being with Dying - Joan Halifax 2009-11-17

The Buddhist approach to death can be of great benefit to people of all backgrounds—as has been demonstrated time and again in Joan Halifax's decades of work with the dying and their caregivers. Inspired by traditional Buddhist teachings, her work is a source of wisdom for all those who are charged with a dying person's care, facing their own death, or wishing to explore and contemplate the transformative power of the dying process. Her teachings affirm that we can open and contact our inner strength, and that we can help others who are suffering to do the same.

Living Is Dying - Dzongsar Jamyang Khyentse 2020-03-31

An insightful collection of teachings about death and dying to help face life's greatest mystery calmly and with equanimity. Lifetimes of effort go into organizing, designing, and structuring every aspect of our lives,

but how many people are willing to contemplate the inevitability of death? Although dying is an essential part of life, it is an uncomfortable topic that most people avoid. With no idea what will happen when we die and a strong desire to sidestep the conversation, we make all kinds of assumptions. *Living Is Dying* collects teachings about death and the bardos that have been passed down through a long lineage of brilliant Buddhist masters, each of whom went to great lengths to examine the process in minute detail. Renowned author and teacher Dzongsar Jamyang Khyentse responds to the most common questions he's been asked about death and dying--exploring how one prepares for death, what to say to a loved one who is dying, and prayers and practices to use as a handhold when approaching the unknown territory of death. Whether you are facing death today or decades from now, preparing for it can help to allay your worst fears and help you appreciate what it means to be truly alive.

Advice for Future Corpses (and Those Who Love Them) - Sallie Tisdale 2018-06-12

A NEW YORK TIMES BOOK CRITICS' TOP 10 BOOK OF THE YEAR "In its loving, fierce specificity, this book on how to die is also a blessedly saccharine-free guide for how to live" (The New York Times). Former NEA fellow and Pushcart Prize-winning writer Sallie Tisdale offers a lyrical, thought-provoking, yet practical perspective on death and dying in *Advice for Future Corpses (and Those Who Love Them)*. Informed by her many years working as a nurse, with more than a decade in palliative care, Tisdale provides a frank, direct, and compassionate meditation on the inevitable. From the sublime (the faint sound of Mozart as you take your last breath) to the ridiculous (lessons on how to close the sagging jaw of a corpse), Tisdale leads us through the peaks and troughs of death with a calm, wise, and humorous hand. *Advice for Future Corpses* is more than a how-to manual or a spiritual bible: it is a graceful compilation of honest and intimate anecdotes based on the deaths Tisdale has witnessed in her work and life, as well as stories from cultures, traditions, and literature around the world. Tisdale explores all the heartbreaking, beautiful, terrifying, confusing, absurd, and even joyful experiences that accompany the work of dying, including: A Good Death: What does it mean to die "a good death"? Can there be more than one kind of good death? What can I do to make my death, or the deaths of my loved ones, good? Communication: What to say and not to say, what to ask, and when, from the dying, loved ones, doctors, and more. Last Months, Weeks, Days, and Hours: What you might expect, physically and emotionally, including the limitations, freedoms, pain, and joy of this unique time. Bodies: What happens to a body after death? What options are available to me after my death, and how do I choose—and make sure my wishes are followed? Grief: "Grief is the story that must be told over and over...Grief is the breath after the last one." Beautifully written and compulsively readable, *Advice for Future Corpses* offers the resources and reassurance that we all need for planning the ends of our lives, and is essential reading for future corpses everywhere. "Sallie Tisdale's elegantly understated new book pretends to be a user's guide when in fact it's a profound meditation" (David Shields, bestselling author of *Reality Hunger*).

The Art of Dying and Living - Kerry Walters

Earlier generations of Christians studied classic *ars moriendi* manuals on the art of dying to help them face and embrace morality. They learned from these books something our own generation is in danger of forgetting: that the manner in which one dies very much depends on the manner in which one has lived. The author explores the connection between living and dying well by recounting the stories of seven exemplary people of our time and the particular virtues they embodied.

The Art of Dying Well - Katy Butler 2019-02-19

This "comforting...thoughtful" (The Washington Post) guide to maintaining a high quality of life—from resilient old age to the first inklings of a serious illness to the final breath—by the New York Times bestselling author of *Knocking on Heaven's Door* is a "roadmap to the end that combines medical, practical, and spiritual guidance" (The Boston Globe). "A common sense path to define what a 'good' death looks like"

(USA TODAY), *The Art of Dying Well* is about living as well as possible for as long as possible and adapting successfully to change. Packed with extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our health system, and how to make your own "good death" more likely. Butler explains how to successfully age in place, why to pick a younger doctor and how to have an honest conversation with them, when not to call 911, and how to make your death a sacred rite of passage rather than a medical event. This handbook of preparations—practical, communal, physical, and spiritual—will help you make the most of your remaining time, be it decades, years, or months. Based on Butler's experience caring for aging parents, and hundreds of interviews with people who have successfully navigated our fragmented health system and helped their loved ones have good deaths, *The Art of Dying Well* also draws on the expertise of national leaders in family medicine, palliative care, geriatrics, oncology, and hospice. This "empowering guide clearly outlines the steps necessary to prepare for a beautiful death without fear" (Shelf Awareness).

The Tibetan Book of Living and Dying - Sogyal Rinpoche 2009-10-13

"A magnificent achievement. In its power to touch the heart, to awaken consciousness, [The Tibetan Book of Living and Dying] is an inestimable gift." —San Francisco Chronicle A newly revised and updated edition of the internationally bestselling spiritual classic, *The Tibetan Book of Living and Dying*, written by Sogyal Rinpoche, is the ultimate introduction to Tibetan Buddhist wisdom. An enlightening, inspiring, and comforting manual for life and death that the New York Times calls, "The Tibetan equivalent of [Dante's] *The Divine Comedy*," this is the essential work that moved Huston Smith, author of *The World's Religions*, to proclaim, "I have encountered no book on the interplay of life and death that is more comprehensive, practical, and wise."

The Book Thief - Markus Zusak 2007-12-18

#1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. "The kind of book that can be life-changing." —The New York Times "Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank." —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF.
